A "Memorable 1917-D Dime," in the words of the Eliasberg catalog, this CAC-approved Premium Gem showcases luminous, frosty surfaces and a hint of light golden toning. 3636907	6051	1794 Flowing Hair Half Dollar O-101A - PCGS VG10	\$5,500.00	Tompkins Die State 1/3. Older blue holder. This is a pleasing half dollar from the first year of silver coinage output. It shows considerable evidence of having circulated in early America, in a sense adding to its appeal. The Flowing Hair portrait of Liberty maintains a strong outline and partial hair detail, while few feathers are apparent on the eagle. The legends and dentils are bold. PCGS Price Guide...\$8,250.
3636908	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG8	\$5,000.00	Well-Worn Yet Pleasing. Iridescent toning melds into a brownish-gray and blue patina, with silver-gray high points. NGC Price Guide...\$8,750.
3636909	39201	1794 Flowing Hair Half Dollar O-101A - PCGS VG08	\$5,000.00	Tompkins Die State 1/5. Thin adjustment marks appear on the lower obverse near the date and across the reverse, these being made by a Mint worker to correct an overweight planchet. Olive-gold and gray patina includes accents of mint-green and pale blue that contribute considerably to the appeal of this well-circulated 1794 half dollar. PCGS Price Guide...\$6500.
3636910	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG8	\$5,000.00	Sought-After at Any Level. Tompkins Die State 1/5. The all-important 1794 date, representing the first year that the Philadelphia Mint engaged in the production of silver coinage, is clear on this circulated half dollar. Richly toned in olive and lavender-gray patina. NGC Price Guide...\$8,750.
3636911	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG10	\$5,500.00	Nice Eye Appeal. Tompkins Die State 1/3. Struck from a mid-to-late state of the reverse die. The obverse shows remnants of a few minor adjustment marks in the hair and at the rims. A golden sheen overlays silver-gray surfaces and deepens slightly at the borders. The date is fully visible and all of the motifs are well-defined for the grade level. NGC Price Guide...\$8,750.
3636912	39201	1794 Flowing Hair Half Dollar O-101A - NGC VG10	\$5,500.00	Attractive for the Grade. Tompkins Die State 1/4. Cracks indicative of the late die state occur left of S1, below the leaves in OF, and through the F on this well-circulated example of the only variety that can be considered collectible. Adjustment marks on Liberty's portrait are Mint-made. Fully readable legends and bold outlines of Liberty and the eagle contribute to the appeal of this problem-free representative with natural gray patina. NGC Price Guide...\$8,750.
3636913	39201	1794 Flowing Hair Half Dollar O-101A - NGC F15	\$8,500.00	Tompkins Die State 1/5. Olive, charcoal, and steel-gray tones blend over this smooth, well-worn flowing hair representative. Outlines of the central devices and the peripheral design elements are bold. A wonderful example of this extremely popular first-year issue. NGC Price Guide...\$12,250
3636914	39201	1794 Flowing Hair Half Dollar O-101A - NGC VF20	\$15,500.00	Strong Details Remain. Tompkins Die State 1/5. This coin may be struck from a late state of the dies, but it shows none of the die sinking responsible for the often-seen weakness in the centers. The eagle's head features a strong outline, and good definition remains on a few of the wing feathers. The same is true of Liberty's portrait, which exhibits partial delineation of the middle curls, not just the lower ones. Patina is lighter over the relief elements than it is in the fields, as expected. A smooth and appealing example of the date. NGC Price Guide...\$25,500.
3636915	39201	1794 Flowing Hair Half Dollar O-104 - NGC F12	\$8,500.00	Mintage...23,464. Evenly Struck. Tompkins Die State 1/3. In this die state, the obverse has yet to form a break through star 3, while a rim cud has developed between ER on the reverse. O-104 is a rare die marriage, as are most varieties for the 1794 half dollar. Interestingly, the reverse die was produced using a unique master hub (see Tompkins p. 437 for distinguishing features). This Fine 12 example exhibits deep gunmetal-gray patina that lightens over the motifs, which show relatively good detail, especially on the eagle. The obverse exhibits numerous crisscrossing adjustment marks, but the surfaces are otherwise smooth. NGC Price Guide...\$12,250
3615615	39201	1794 Flowing Hair Half Dollar O-101A - NGC VF30	\$15,500.00	Popular O-101a, T-7 Variety. Tompkins Die State 1/3. Only 23,464 Flowing Hair half dollars were struck in 1794, with 11 die varieties known for the date. Star 1 pierces the lowest curl near the center on this coin, and there are 21 berries, arranged 10 left and 11 right on the reverse, that identify the popular O-101 variety. This impressive VF30 example retains some interior detail on the central portion of Liberty's hair and all major design detail remains intact. The pleasing surfaces are blanketed in shades of lavender-gray and golden-brown toning and a shallow scrape below star 8 is the only abrasion of note. Hints of original luster shine through the patina. NGC Price Guide...\$25,500.
3615616	39201	1794 Flowing Hair Half Dollar O-101A - NGC XF40	\$33,000.00	Original Patina. T-7, High R.3. The die crack at the F in OF continues all the way to the final S in STATES, identifying the O-101a die state. Both sides are sharply defined and evenly struck with complete border dentils. On the obverse, Liberty's hair strands and the eye is well-defined. Planchet adjustment marks crisscross the portrait and appear along the lower and right borders. The reverse shows sharp feather detail on the eagle's wings with wear on the breast and neck. Original olive-gray patina blankets each side. NGC Price Guide...39,750

3615617	39201	1794 Flowing Hair Half Dollar O-101A - NGC XF45	\$39,000.00	Smooth, Appealing Surfaces. Rare in This Grade. The 1794 half dollar is most often seen in heavily circulated grades, frequently with cleaning, tooling, or other impairments. High-end circulated coins are rare, and in this condition there is little room to be choosy when it comes to die variety. This Choice XF coin represents exceptional quality for the issue. The olive-gray surfaces are smooth and unquestionably original, showing lighter patina on the high points of the devices. Strong hair and wing feather detail remains, with wear visible on Liberty's cheek and the eagle's breast. The borders are sharp and free of adjustment marks, although some of the latter are seen within Liberty's hair strands. Only 23 finer (3/18). NGC Price Guide...\$39,750. PCGS Price Guide...\$51,000.
3636916	6159	1831 Bust Half Dollar - PCGS MS64	\$2,750.00	O-110, R.2, Lavender and Rose Accents. An original and highly appealing near gem Bust half. Attractive lavender and rose toning adds interest to the smooth and lustrous silver-gray surfaces of this Choice O-110. The upper reverse displays a few glimpses of charcoal patina. Well struck. PCGS Price Guide...\$3,500.
3636917	6239	1842 Medium Date Seated Half Dollar - NGC MS65	\$6,900.00	WB-105, Die Pair-12, Triple Punched Date. Ex: "Col." E.H.R. Green. NGC has certified only four 1842 Medium Date half dollars of this variety as MS65 with one higher (2/18); it is also the plate coin from NGC's 1842 Medium Date half dollar Coin Explorer. Pleasing crescent moon-shaped blue and gold toning covers silvery fields on both the obverse and reverse. This variety shows the digits 842 slightly repunched north one above the other three times. NGC Price Guide...\$9500. In one Grade Higher NGC Price Guide is \$33,500.
3636918	6288	1856-O Seated Half Dollar - PCGS MS65	\$5,500.00	Rich Peripheral Patina. PCGS Secure. Bands of blue-green and autumn-brown endow the borders of this lustrous and virtually unabrased Gem. The 1856-O is readily obtained in well circulated condition, but the antebellum issue becomes rare at the MS65 level. PCGS Price Guide...\$6,350.
3706805	6424	1866 Motto Seated Half Dollar - NGC PF65	\$2,600.00	Mintage...725. The introduction of the motto in 1866 created a new subtype in the seated half dollar series. This Gem proof piece has gorgeous gold-toned centers anchor mixed olive-green and blue marginal hues on the obverse, while the reverse is attractively patinated in the latter colors. Complete with reflective fields. NGC Price Guide...\$4200.
3706806	6443	1882 Seated Half Dollar - PCGS PR66	\$3,300.00	Mintage...1100. Lovely original toning. While the various mints were concentrating on Morgan dollars throughout the 1880s, smaller denomination silver coins had extremely low mintages. This Premium Gem proof exhibits deeply mirrored fields beneath thick sea-green and iridescent toning. Only 4 coins certified by PCGS in MS67. PCGS Price Guide...\$3750.
3636919	6466	1893-O Barber Half Dollar - PCGS MS64	\$1,750.00	Only Nine finer known. Dusky, toned surfaces show areas of golden color over the right obverse field and within parts of the legend, while the remainder of each side has delicate iridescence. Strike characteristics are typical of the New Orleans Mint, which produced nearly 1.4 million half dollars in the second year of the Barber series. PCGS Price Guide...\$1950. Numismedia Retail...\$2000.
3636920	6482	1898-S Barber Half Dollar - PCGS MS65	\$5,500.00	Only six finer known. Shades of cobalt-blue, olive-green, and violet color the obverse. The reverse exhibits golden hues overall, with areas of plum and teal at the extreme outer edges. PCGS Price Guide...\$8000
3662302	6493	1902-O Barber Half - NGC MS65	\$5,500.00	The 1902-O Barber half dollar was a workhorse of commercial channels. Mint State survivors are generally scarce, and Gems are rare. This piece shows beautifully preserved, frosty luster cast in lovely orange-gold, lavender, and champagne-gray hues.
3502009	6508	1907 Barber Half Dollar - PCGS MS65	\$1,800.00	A moderately toned, satiny example that is sure to catch the eye of Gem type collectors. 3636921	6514	1908-O Barber Half Dollar - NGC MS67	\$8,800.00	Only One Finer Certified. The eye appeal of this Superb Gem New Orleans Barber half dollar is its primary attribute. Satin mint luster shines beneath peach-gold and lavender patina on the obverse and ice-blue toning on the reverse. The portrait and stars are strong. An important condition rarity at this grade level. NGC Price Guide...\$15,500
3636922	6543	1896 Barber Half Dollar - PCGS PR67	\$3,900.00	Only two Finer Certified. Sharp and deeply mirrored. A small flan flaw at 1 o'clock relative to the obverse border is also evident on the reverse. NGC Price Guide...\$4550. CDN Collectors Guide...\$4800.

3705804	6937	1850 Seated Dollar - PCGS MS62	\$9,500.00	Mintage...7500. PQ! This is a thoroughly appealing 1850 silver dollar -- a key date issue. Prooflike in finish, both sides exhibit satiny devices and mirrored fields beneath an overlay of smoky silver-apricot patina. The strike is quite well executed for the type with sharp definition throughout the design. Solidly graded with a pleasant appearance. Long recognized as one of the more elusive issues in the Liberty Seated silver dollar series, just 7,500 circulation strike 1850 silver dollars were made. With 9,519,000 pieces produced, the 1877-S has the highest mintage in the brief trade dollar series of 1873 to 1883. The bright straw-gold luster is original, and hints of semiprooflike mirroring are visible in the fields. Some planchet roughness is seen on the obverse, as made. A second crack runs radially from the edge near star 11 through the top two points, across the field, and into Liberty's back curls. This is a solidly graded and attractive survivor that is sure to please the discerning gold enthusiast. CDN Collectors Price Guide...\$25,400. One grade higher in MS64...\$41,900.

The series is known for a host of varieties, including overdates, Small and Large dates, Small and Large denominations, Small and Large 5s, and in this case Wide and Narrow 5 D. Uniformity of design elements was still a couple of decades away, and these early Mint products provide collectors with a wider variety of coins to pursue than might at first appear to be the case. 9990005	11217	1836 Gobrecht Silver \$S1 (J-58) - NGC PF64	\$100,000.00	Gobrecht-designed dollars were struck in 1836 to reintroduce the denomination to a new generation. The strike details are full with complete hair definition. All the eagle's breast feathers are completely articulated on the reverse. The production of 18 pieces for the Name Below Base is an apocryphal mintage that is traceable to Edward Cogan in 1867. While no exact mintage is known for this issue, judging from the number of survivors known somewhere around 60 to 100 pieces were probably made. As with all Gobrecht dollars, they were struck in proof format and most likely struck twice to bring up high point definition. This is a stunning Judd-58. The fields are brightly mirrored and devoid of any noticeable contact marks. As mentioned above, the striking definition is strong. The foot of Liberty is the usual place to look for fullness of strike on a Gobrecht dollar, and here it has medal-like clarity of detail. The centers are brilliant with light golden toning encircling the margins. Mintage...probably 60 to 100.

This is apparent even through the multiple layers of deep blue, gray, and rose-golden toning that cover each side. The high points of the design are completely brought up, including Liberty's head, foot and sandal, and the eagle's breast feathers. NGC Census: 1 in PR62, 9 finer. 3542101	11354	1838 Seated \$1 (J-85) Res. - PCGS PR65+ CAC	\$200,000.00	Mintage...Unknown. These pieces are extremely rare. Many variants of Gobrecht dollars were struck beginning in 1836, continuing in 1837, 1838, and 1839, picking up again in the late 1850s and continuing through the 1870s. Of these many issues the only date that is believed to actually have been coined as a pattern is the 1838. Each side displays variegated shadings of rose, blue, golden, and brown, lighter in the center of the obverse and deeper around the margin. The strike is full. This includes complete definition on the foot of Liberty, the eagle's breast feathers, and the right-side stars on the obverse.
