13	(1652) New England Shilling -- NGC AU58	\$275,000	Pop 2 with one finer. Mintage unknown. Ex. Kreisberg (69.4 gr.). You just don't see Shillings this nice. This fully original piece is well-centered and the sharpest strike that we have ever seen. The planchet is perfectly round, incredibly smooth and well detailed. In our opinion -- this piece could've graded mint state. -- Last record shows this piece trading hands back in 1978. MORE ABOUT NE SHILLINGS: The New England coinage is of unparalleled importance as the foundational coinage of what is now the United States. The NE shillings had the origin and denomination stamps punched by hand on round blanks. The silver used for the coin production was obtained locally and the pieces would be melted, assayed, refined, and then cast into strips by mint master John Hull in order to produce coins for the owner of the silver. The initial NE coinage was produced for only a short period. NGC Price Guide...\$375,000.
45372	1652 Pine Tree Shilling, Reversed N -- NGC MS65 CAC	\$79,500	The CAC designation on this historic Pine Tree Shilling shilling makes it the finest known among its varieties. It is truly a magnificent example that is well-centered and its luster breaks through the rich tones making it quite attractive. The history behind the Pine Tree Shilling: The pine tree shilling was a type of coin minted and circulated in the Thirteen Colonies. In 1652, the Massachusetts Bay Colony authorized Boston silversmiths John Hull and Robert Sanderson to mint coinage. Prior to 1652, the Massachusetts financial system was based on bartering and foreign coinage. The scarcity of coin currency was a problem for the growth of the New England economy. On May 27, 1652, the Massachusetts General Court appointed John Hull, a local silversmith, to be Boston's mint master without notifying or seeking permission from the British government. Coins were issued in denominations of 3 and 6 pence and 1 shilling. The first pieces bore the letters "NE" and the denomination "III", "VI" or "XII".
52	Undated (ca. 1828)American Plantations Token, or 1/24 Part Real. Restrike -- PCGS MS64	\$3,250	Pop 3 with none finer. Outstanding quality for this issue. The surfaces are bright silver-gray with strong frosty luster - quite unlike the typical original striking that has a dark, matte-like appearance, often due to environmental damage. Well centered, a bit better so on the obverse, with crisp detail throughout the design. PCGS Price Guide...\$5,500.
58	Undated (ca. 1694) London Elephant Token - PCGS MS63BN	\$14,500	Pop 3 with 4 finer. Another superb example of the scarcer thin planchet format, one both more elusive and usually better struck than the thick planchet. This is on a virgin flan, with bright golden luster barely faded from mint color on the obverse and a mottling of gold, light brown, and violet blue on the reverse. Crisply struck, well centered on the obverse, trivially aligned to the right on the reverse virtually a problem free. A very high grade, nice looking example of the type. PCGS Price Guide...\$22,500.
921519	1723 Hibernia Halfpenny, S-6601 -- NGC MS65+ BN	\$2,450	The coin is sharply struck and shows reddish luster beneath satiny chocolate-brown patina. William Wood owned copper and tin mines in Ireland. He purchased the royal patent that authorized him to produce up to 360 tons of halfpence and farthings for Ireland at 30 pence to the pound over a period of fourteen years for an annual fee of £800 paid to King George I. NGC Price Guide in MS66BN...\$4000
920818	1723 Wood Hibernia Halfpenny -- PCGS MS65RB	\$3,300	A simply beautiful type coin, a magnificent survivor of this issue. Richly lustrous and boasting most of the original mint color, lightly mellowed in the fields and on the devices.
179	1723 Wood's Hibernia Farthing, Silver -- PCGS SP64	\$35,000	Unique. Mintage Unknown. A fabulous example of the rare and desirable pattern strike Wood's Hibernia farthing in silver. This piece almost certainly derives from the small cache that turned up in Europe in the 1970s. Gunmetal toning appears mottled over silvery surfaces. Strike definition is razor-sharp on this Choice specimen.
920822	1723 Wood's Hibernia Halfpenny. Martin 4.31 -- PCGS MS63BN	\$675	A lovely example with plenty of faded mint red color remaining on otherwise lightly toned olive-brown surfaces.
63	(1789) Mott Token - Thick Planchet, Plain Edge -- NGC MS63 BN	\$1,150	Pop 8 with 11 Finer. Breen-1022. An uncommonly well preserved example of this intriguing early American token with glossy mahogany-brown surfaces that retain traces of mint frost. Late state of the dies with a large die break at the top left corner of the clock and spalling in the fields and peripheries of both sides. The exact origins of these tokens remain a mystery, but it is likely they were made at least a few decades after the 1789 date they bear and the die work appears to match that of some other tokens produced by Robert Lovett, Sr. in the 1830s. This is a choice and appealing example. No price guide information available.
236	1766 Pitt Halfpenny, Copper -- NGC MS65BN	\$25,000	Pop 2 with none numerically finer at NGC or PCGS. Rich mahogany-brown on the obverse with the soft glow of faded mint red undertones over much of the surface. These are incredibly rare in high grade. A Pitt halfpenny is on every colonial collectors want list. They exist in every grade, as they seem to have been commonly adopted among the circulating coppers for their size and similar design. Despite the relatively large numbers issued they are incredibly rare in high grade. NGC Price Guide...\$25,000.

246	1773 Virginia "Penny" -- PCGS PR64 BN	\$25,000	Mintage Unknown. Pop 3 with only 7 Finer. A lovely and impressive example of this classic colonial rarity. Both sides possess a rich and evenly distributed chestnut-brown patina, with flashy silvery-blue iridescence as well as a few hints of mint red. Crisply impressed from the dies and well centered on the planchet; one will be challenged to locate a singularly bothersome area of striking incompleteness, with the legends and devices standing in pinpoint definition. All told, simply a beautiful and high-end representative of this celebrated type. Struck on highly prepared planchets from a unique set of dies, the Virginia "penny" coins were never intended for commerce. While a few are known with evidence of circulation, most are fairly nice, well-preserved in the upper class 18th century English collections for which they were intended. As the most impressive form of the only truly "colonial" coin in the United States, the Virginia penny is a classic rarity, avidly sought in every state of preservation. Fewer than 30 examples are thought to exist. PCGS Price Guide...\$25,000
427	1787 New York Excelsior Copper, Eagle on Globe Left, Silvered -- NGC XF45	\$27,500	Single finest known at NGC. Mintage unknown. This impressive piece, which has smooth medium brown surfaces with olive-gray color where silvering remains is listed on page 64 of the 2024 Guide Book. One of the more famous and popular New York issues is the Excelsior Copper with the arms of New York on the obverse and a heraldic eagle on the reverse. On the front of the coin a smaller eagle is perched atop a small globe. On one variety, the eagle's head is turned right; on this one, the head is turned left. The two varieties appear to be of similar rarity.
592	1783 John Chalmers Threepence -- PCGS XF40	\$10,500	Pop 5 with 14 finer. This is an outstanding representative of a scarce and challenging early federal era silver type. Richly toned surfaces show iridescent steel-blue on the obverse, lighter golden-gray on the reverse. Both sides are well centered in strike with generally bold to sharp detail. PCGS Price Guide...\$17,500
646	1796 Copper Token, Myddelton -- NGC PF63 BN	\$17,800	Philip Parry Price Myddelton commissioned a token from the Matthew Boulton's Soho Mint, for Myddelton's proposed British expatriate community on his plot of land in northern Kentucky. Myddelton was imprisoned by the British crown for his efforts to export skilled labor to America, ending his efforts at settlement. But the tokens are prized by numismatists today for their beauty and quality. A lustrous and well-struck autumn-brown specimen with glimpses of peripheral powder-blue. Listed on page 75 of the 2024 Guide Book. No NGC Price Guide Information Available. PCGS Price Guide...\$27,500.
731	1742-P Sou Marque, Dijon Mint -- PCGS XF45	\$275	Speckled steel and blue-gray toning to both sides, the reverse also with traces of iridescent reddish-gold.
731	1740-Q Sou Marque, Perpignan Mint. -- PCGS MS62	\$2,200	Sharply struck with full silvering and a bright frosty to semi-reflective finish - a rare set of attributes in a sou marque from the challenging Perpignan Mint.
731	1739-R Sou Marque, Orleans Mint -- PCGS AU55	\$1,750	A really exemplary example of this extremely rare punctuation variant, with a stop after the R mintmark on the obverse. The piece is a nice pale silver-gray in color, the hue nearly uniform across both surfaces.
731	1741/39-R Sou Marque, Orleans Mint -- PCGS XF45	\$290	Mottled steel and dove-gray patina with a few swirls of deeper charcoal in and around the central obverse.
731	1741/0/39-R Sou Marque, Orleans Mint -- PCGS AU58	\$725	Medium silver-gray with blended gold and pale rose toning on both sides.
731	1741/0/39-R Sou Marque, Orleans Mint -- PCGS MS61	\$950	A very sharply struck specimen with the clearest star/battleaxe over punching and a very bold overdate. The piece is a nice warm rose-gray in color.
731	1738-S Sou Marque, Reims Mint -- PCGS AU50	\$475	With nearly intact silvering to warmly toned, light rose and pewter-gray surfaces.
731	1740-S Sou Marque, Reims Mint -- PCGS AU Details	\$450	This is the final year of issue of the denomination from the Reims Mint. This specimen is pale gray in the fields, slightly darker on the higher points
731	1739-T Sou Marque, Nantes Mint -- PCGS XF45	\$250	Richly toned in copper-gray and steel-olive patina with traces of silvering that are clearest in the center of the obverse.
731	1738-V Sou Marque, Troyes Mint -- PCGS AU55	\$450	An attractive piece with full silvering, a generally bold strike, and appreciable mint frost.
731	1739-V Sou Marque, Troyes Mint -- PCGS MS63	\$3,300	Nice pale gold and gray in color on both sides. an impressively smooth appearance for surfaces that exhibit full silvering and strong luster.
767	1795 Washington Liberty and Security Penny -- NGC MS62BN	\$1,950	Pop 5 with 10 finer. Sharply struck with dominant chocolate brown patina that gives way to soft champagne-gold and powder blue undertones as the surfaces dip into a light. Pleasantly smooth in hand, and uncommonly so for the assigned grade. No NGC Price Guide Information available. PCGS Price Guide...\$1,900.
791	1776 Continental Dollar, Pewter -- PCGS XF45 CAC, CMQ	\$42,500	This is a handsome Choice Extremely Fine example of the fabled Continental dollar, a type whose history has recently been rewritten by numismatic researchers, but whose popularity is as strong today as it has ever been. Medium pewter-olive surfaces retain subtle flashes of mint brilliance in the protected areas around the design elements - an attribute best appreciated at direct viewing angles. Well centered in strike with border. According Numismatic Scholars, resolutions passed by the Continental Congress on February 17, 1776, and May 9 of the same year provided for the issuance of paper money in various denominations, including a \$1 note. Resolutions passed later in the year on July 22 and November 2, however, omitted the \$1 note. Based on these facts and supported by the existence of these coins, it was theorized that the Continental Congress intended these pieces to serve in lieu of the \$1 note beginning in the latter half of 1776. PCGS Price Guide in XF40 Non-CAC...\$42,000
791	1776 Continental Dollar, Pewter, EG FECIT Variety -- PCGS XF40, CMQ	\$37,500	Lovely pewter-gray surfaces has bold definition and every major element of this historic and popular design type is present to be admired. The level of surface preservation is above average for a Continental dollar, especially one that experienced light handling. In addition to the aforementioned original patina, both sides provide an uncommonly smooth appearance while in-hand. The EG FECIT variety is eagerly sought in its own right, of course, by those who indulge in serious pursuit of this series as well as by those who simply enjoy a "different" sort of example for their type set. This piece is attractive for the grade. PCGS Price Guide...\$42,000

1347	1793 Flowing Hair Cent -- NGC MS64+ BN	\$135,000	Pop 2 with only 2 finer at NGC. Extraordinary Near-Gem Mint State 1793 Wreath Cent. This is a lovely, premium Choice Uncirculated example of this classic one-year type from the first year of large cent production. Beautifully toned in warm, even copper-rose patina, both sides also exhibit antique gold (obverse) and powder blue (reverse) undertones. The strike is exceptional for a coin whose design was executed in high relief, especially one attributed to the fledgling United States Mint. The planchet is choice, hard and tight, with no fissures, pits, or other detracting flaws. A softly glowing frosty texture adds to the appeal of this premium quality Wreath cent. This is a fresh 1793 Sheldon-8 Wreath cent that has been off the market for decades. It recently emerged as part of an early type set of United States Mint coinage, having been acquired from Abner Kreisberg decades ago. NGC Price Guide...\$170,000
1574	1814 Crosslet Large Cent -- NGC MS64 BN	\$13,500	Pop 3 with 3 finer at NGC. This beautiful Choice example will appeal to high quality type collectors and advanced early copper specialists alike. Smooth and glossy, the surfaces exhibit warm medium copper patina on the obverse with much of the same on the reverse. NGC Price Guide...\$22,000
1574	1814 Crosslet Large Cent -- NGC MS64+ BN	\$17,500	Pop 2 with 1 Finer. This delightful Choice Mint State piece displays an imperfectly centered but sharp strike with satiny olive and steel-brown luster and splashes of mint red on both sides. Nearly 50 Mint State 1814 Crosslet 4 cents are PCGS-certified, although the total includes an unknown number of resubmissions. There are probably three dozen pieces known that grade MS60 or better.. NGC Price Guide...\$25,500
3285	1922 No D Lincoln Cent, Strong Reverse -- NGC MS63BN	\$19,500	Pop 12 with only one finer. This is a beautiful Choice Uncirculated example of the scarce and conditionally challenging 1922 No D cent. Warmly patinated in golden-copper, both sides also reveal tinges of faded rose and apricot around the peripheries - remnants of the original mint color. Sharply struck on the reverse. NGC Price Guide...\$24,500. Check out the Historical APR Record from 2017 for a PCGS CAC coin...\$44,000.

3674	1858 Three Cent Silver -- PCGS MS66	\$3,300	Only 12 Finer. This impressive Premium Gem exhibits well-detailed design elements and well-preserved lustrous surfaces, with vivid highlights of sea-green, lavender, and violet toning. Eye appeal is outstanding. PCGS Price Guide...\$4,500.
3719	1869/8 Three Cent Silver - PCGS PR66 CAC	\$7,500	One Numerically Finer This enchanting specimen is drenched in vivid, blended patina of cobalt blue, deep rose, charcoal-olive and reddish-gold. Well-mirrored in finish with full striking detail and silky smooth surfaces. Terrific overdate specimen. PCGS Price Guide in PR66 Non-CAC...\$10,000.
3747	1879 Three Cent Nickel -- NGC MS67+	\$2,750	Pop 1. None Finer. This is the finest 1879 three cent nickel known, and it is conditionally rare as such. The devices are sharp, and the satiny. NGC Price Guide...\$4500.
93765	1869 Three-Cent Nickel -- PCGS PR66DCAM	\$2,500	This is an exquisite upper end Gem with watery fields supporting frosty design elements. Sharply struck, as befits the method of manufacture, with only the lightest champagne iridescence denying full brilliance. Exceptional quality in a survivor from a Proof mintage that is likely on the order of 850 to 1,100 pieces. PCGS Price Guide...\$2500.
3769	1873 Closed 3 Three Cent Nickel -- NGC PF67	\$3,500	Pop 5 at NGC. None Finer. A pleasing pastel-toned Superb Gem proof, showing powder-blue and champagne hues across reflective fields and satiny devices. The strike is sharp throughout, and no mentionable marks are seen. The 1873 proof is only known with the Closed 3 date variant. Examples are rare in Superb Gem condition. NGC Price Guide...\$4850
83770	1874 Three Cent Nickel -- NGC PF67 Cameo	\$3,300	No Finer Pieces Certified. Lustrous light gray devices and lightly mirrored fields characterize this brilliant and toned Superb Gem Cameo proof. NGC Price Guide for a common date...\$4250.

PCGS #	Nickels (All Varieties)	Price	Description
3817	1866 Rays Shield Nickel -- NGC PF67 Cameo	\$12,500	None finer. Here is the first year of the Shield nickel type. Rays Shield nickels were only struck in 1866 and part of 1867. Proofs from 1867 are rarely seen in PF67 Cameo. Well Struck and excellent Cameo contrast. NGC Price Guide...\$15,000.
3791	1867 Rays Shield Nickel -- NGC MS66	\$6,900	The 1867 Rays Shield nickel is scarcer in high grade than its No Rays counterpart. This Premium Gem example displays satiny silver luster and excellent surface preservation. NGC Price Guide...\$9,000
3825	1871 Shield Nickel -- NGC PF67	\$3,950	Pop 5. None Finer. A virtually pristine condition rarity that will appeal to quality conscious specimen type and date collectors. Lightly toned in iridescent champagne-gold, more so on the obverse than reverse. Both sides are fully struck with a highly reflective finish. Exquisite! NGC Price Guide...\$4,500.
3874	1912-D Liberty Nickel -- NGC MS67	\$14,900	Among the finest certified. This top-graded rarity is naturally toned in an array of powder-blue, green rose, orange, gold, and lavender hues. Eye appeal is spectacular, easily matching the unsurpassed quality. The kernels on the left ear of corn are fully defined, as is the rest of the design. The 1912-D was one of the first branch mint nickels issued along with the lower-mintage 1912-S. NGC Price Guide...\$18,500. Check out the Historical APR Record from 2018 for a PCGS coin...\$41,125.
3917	1913-S Buffalo Nickel, Type 1 -- NGC MS67+	\$5,950	Pop 14 with only 4 finer. Beautiful toning in ice blue and champagne-pink iridescence is seen on both sides. Soft satin luster, smooth surfaces and a sharply executed strike complete the package for this truly impressive piece. A rare offering for a first-year Buffalo nickel issue that is usually very difficult to acquire as a Superb Gem, and a particularly important find for NGC Set Registry participants. NGC Price Guide...\$18,500. Check out the Historical APR Record from 2021 for a PCGS coin...\$16,800.
3917	1913-S Buffalo Nickel, Type 1 -- NGC MS68	\$16,500	Pop 4 and tied for finest known. With none finer at either service. The design elements are sharply detailed and the impeccably preserved, textured surfaces radiate vibrant mint luster. CDN Greysheet...\$16,000. CDN Collectors Price Guide...\$19,200. PCGS Price Guide...\$60,000!

3923	1913-S Buffalo Nickel, Type 2 -- NGC MS67	\$17,500	Pop 5 in MS67. Only one finer in MS67 Plus. Outstanding technical quality and eye appeal for the rarest of the 1913-dated Buffalo nickel issues. Smooth and lustrous, the surfaces are further enhanced by delicate toning in iridescent champagne-pink. The strike is exceptional for this challenging issue. NGC Price Guide...\$22,500. Check out the Historical APR Record from 2013 for \$49,938.
3930	1916 Buffalo Nickel -- NGC MS67	\$3,200	Only 2 Numerically finer. One at NGC and the other at PCGS. NGC Price Guide...\$4000.
3932	1916-D Buffalo Nickel -- NGC MS67+	\$29,500	Single Finest Known. This is a magnificent Superb Premium Gem coin. Although the mintage of 13,333,000 coins for the 1916-D may seem adequate, we all know today that very few were saved at the time of issue, high end Mint State survivors such as this are extremely rare. An important coin that has everything a collector could desire - technical grade and strong eye appeal. No Price Guide information at NGC. PCGS price Guide...\$45,000.
3937	1918 Buffalo Nickel -- NGC MS67	\$13,500	Pop 8 with one finer in MS67 plus at NGC. A lovely example toned in soft pastel hues of rose, apricot and powder blue over bright and lustrous surfaces. The strike is bold throughout with crisp peripheral lettering. NGC Price Guide...\$21,500. Check out the Historical APR Record from 2006 for a PCGS Coin...\$40,825.
3943	1919-S Buffalo Nickel -- NGC MS66	\$49,500	Pop 3 None Finer at NGC. The uniformly razor sharp strike on both sides of this coin set it apart from the vast majority of Mint State 1919-S nickels extant. Also of note is the surface preservation, which is nothing short of extraordinary. Full satin luster is retained, the appearance smooth, vibrant and further enhanced by lovely lemon yellow and pale rose iridescence. Easily among the nicest examples of this challenging issue. NGC Price Guide...\$85,000!
3948	1921-S Buffalo Nickel -- NGC MS66	\$15,750	The 1921-S Buffalo nickel is a conditionally challenging date in Gem or better grades, and Premium Gem coins such as the present are universally rare, with finer pieces being nearly uncollectible. This piece displays luminous original mint luster cast in delicate champagne iridescence. NGC Price Guide...\$22,000. Check out the Historical APR Record from 2005 for a PCGS coin...\$51,750.
3955	1925-D Buffalo Nickel -- NGC MS66+	\$8,950	Pop 2 with none finer at NGC pearly and intensely lustrous Gem struck midway through the Roaring Twenties. Subtle hints of golden iridescence are backlit by soft satin texture across the surfaces. Virtually pristine and not surprising since this piece ranks among the very finest 1925-D nickels seen by NGC, PCGS and CAC. NGC Price Guide in MS66 (Non-Plus)...\$12,000.
3958	1926-D Buffalo Nickel --- PCGS MS66	\$7,500	Only 3 Finer. Stunning Colors on this one. PCGS Price Guide...\$9250.
3962	1927-S Buffalo Nickel -- NGC MS65	\$6,950	Only 10 finer. Condition Rarity. This sharply defined example is untuned apart from the lightest suggestions of champagne gold iridescence that are more pronounced on the reverse. Surfaces are lustrous, frosty, and uncommonly free of even trivial distractions. NGC Price Guide...\$13,000. Check out the Historical APR Record from 2006 for a PCGS Coin...\$24,150.
3965	1928-S Buffalo Nickel -- NGC MS66	\$9,500	Pop 12 with only 3 finer at PCGS. Richly toned. This Premium Gem 1928-S is impressively well struck, with a rounded horn and complete central details. This San Francisco issue is rarely offered as fine as MS66. The current coin displays luminous surfaces with vivid multicolor toning throughout. Only a handful of higher-grade pieces are known. NGC Price Guide...\$9,750. Check out the Historical APR Record from 2005 for a PCGS coin...\$43,125.
3968	1929-S Buffalo Nickel -- NGC MS67	\$9,500	Pop 12 with None Finer at NGC. --+Exceptionally smooth satin surfaces border on pristine. PCGS # Half Dimes (All Varieties)		Price	Description
4311	1837/1837 LG DT Seated Half Dime, VP-001 -- NGC MS66	\$4,175	Only 12 finer. The date digits are heavily repunched on this first-year Seated half dime. Each side remains nearly flawless and strike detail is razor-sharp. The obverse is beautifully toned in shades of blue, gold, and violet, while the reverse is largely brilliant and frosty. NGC Price Guide...\$4550
4356	1853 Seated Half Dime With Arrows -- PCGS MS67	\$6,950	Pop 11 with 6 finer. A richly original Superb Gem with particularly dramatic reverse toning in mottled copper-red, steely-charcoal and deep olive colors. The brighter reverse is brilliant in the centers with splashes of similar colors around the periphery. Both sides are sharply struck with a full endowment of smooth, billowy mint luster. PCGS Price Guide...\$9000
4381	1862 Seated Half Dime -- PCGS MS68	\$8,750	Pop 7 with none numerically finer. An Absolute rarity. This captivating Superb Gem exhibits semi-proof like reflectivity in the fields that forms a splendid backdrop to smartly impressed, frosty-textured design elements. Both sides are predominantly brilliant, although we do note pretty peripheral highlights in iridescent golden-apricot that are about equal in intensity on each side. PCGS Price Guide...\$10,000.
4393	1868-S Seated Half Dime -- PCGS MS65 CAC	\$3,250	Only 6 finer at PCGS. Full softly frosted luster flows over surfaces that are brilliant apart from a halo of faint champagne-gold iridescence around the reverse periphery. This is a remarkable condition rarity that would serve as a highlight in the finest collection of Liberty Seated coinage. PCGS Price Guide for a Non-CAC coin...\$1,850. In MS66...\$5,500.
PCGS # Dimes (All Varieties)		Price	Description
38770	1807 Bust Dime -- PCGS MS66+, JR-1	\$75,000	Single Finest at PCGS. Brilliant silver luster and rich shades of blue and olive-gray toning vie for position on this spectacular Premium Gem dime. Frosted surfaces and the central devices are sharply struck. The reverse is remarkably sharp. All of the field stars are complete. This coin is the finest survivors of the date, which represents the final Draped Bust dime issue. PCGS Price Guide...\$85,000
4504	1827 Bust Dime -- NGC MS65	\$8,900	Only 6 finer. Very light, attractive and lustrous toning. NGC Price Guide...\$15,000.
4527	1835 Bust Dime -- NGC MS65	\$4,950	A hint of wheat-gold toning graces the borders of this otherwise brilliant Gem. The sharply struck surfaces teem with luster. JR-1 is an available variety that can often be attributed at a glance by its radial die crack through the A in STATES. Greysheet Bid...\$5500.

4609	1856 Seated Dime, Small Date -- NGC MS66+	\$4,950	Pop 1 with one finer at NGC. Exceptional surface preservation for the more frequently encountered date logotype of the circulation strike 1856 dime. Smooth and satiny, both sides are brilliant apart from the lightest pale silver and champagne-gold tinting. Fully struck with eye appeal to spare, even the finest collection of Liberty Seated coinage would benefit from inclusion of this premium quality Gem. NGC Price Guide...\$5,625.
4651	1870 Liberty Seated Dime -- NGC MS66	\$5,950	Pop 4 with none finer. Satiny on both sides, with a light coating of pastel gray-golden toning. The strike is sharp overall including Liberty's hair and the leaves on the wreath on the reverse. Outstanding surface quality with no mentionable distractions seen even when studied with a loupe. One of the four MS-66 coins certified by NGC of this more difficult date, with none finer. With a mintage of 470,500 pieces for the year, dismal survival rates ensued and finding more than a handful may require decades. Gems like this are caviar for the specialist. NGC Price Guide...\$7500.
4688	1880 Liberty Seated Dime -- NGC MS68	\$9,750	Pop 5 with none finer. Splendid ocean-blue, red, and gold toning embrace this lustrous and immaculate Seated dime. The deepest shades of color are located near the rims. Likely due to large-scale silver dollar production, the business strike mintage of the 1880 dime was only 36,000 pieces. Apparently, Philadelphia dealers at the time were aware of the issue's scarcity, and set aside examples in Mint State. Nonetheless, the date is rarely encountered in the present quality. NGC Price Guide...\$12,500
4777	1880 Liberty Seated Dime -- NGC PF68+	\$10,500	None finer at either service. Gorgeous Toning. Attractive cobalt-blue, beige-gold, and lavender patina runs over the obverse, while orange-gold joins the color palette on the reverse. Sharply struck and impeccably preserved. The low mintage of 36,000 business strikes places strong date pressure on surviving proofs. NGC Price Guide in PF68 (Non-Plus)...\$10,000
4809	1896 Barber Dime -- NGC MS67	\$3,750	Pop 1 with none finer at NGC. Nice light tones on both obverse and reverse.
4820	1899-S Barber Dime -- PCGS MS65	\$2,150	PCGS Pop 12. A splendid specimen, an absolute Gem example of the San Francisco Barber dime from 1899. Sunset-golden toning is mixed with russet-charcoal on the obverse, while on the reverse, we see a mixture of olive-green, antique-gold and dove-gray. Details are well struck. Seeing this coin will make you want to start collecting Barber dimes! CDN Collectors Price Guide...\$2380.
4882	1898 Barber Dime -- PCGS PR67	\$1,900	Mintage...735. Only one finer at PCGS. Strongly reflective through deep and luminous patina, blue, violet, lavender, and gold-green. Boldly struck and fantastic eye appeal. PCGS Price Guide...\$3,500.
PCGS #	Twenty Cent Pieces	Price	Description
5299	1876 Twenty Cent Piece -- NGC MS66	\$12,500	Pop 19 with only three finer. Deep uniform rich tones that your eyes won't believe. Deep electric-blue, grayish-lavender, and reddish-orange toning blankets both sides, each of which exhibits well-struck motifs. NGC Price Guide...\$14,500. CDN Greysheet...\$13,000. CDN Retail Price Guide...\$15,600.
5304	1876 Twenty Cent Piece -- NGC PF66	\$10,750	Mintage 1,260. Pop 9 with 5 finer. This delightful Premium Gem exhibits sharply detailed design elements and reflective fields, under attractive shades of sea-green, magenta, and cerulean-blue toning. NGC Price Guide...\$15,250.
PCGS #	Quarters (All Varieties)	Price	Description
5321	1815 Capped Bust Quarter -- NGC MS65	\$19,500	This is a particularly well preserved and attractive survivor of this popular first year 1815 Capped Bust quarter. The obverse exhibits gorgeous toning with iridescent cobalt blue and pinkish-apricot iridescence backlighting dominant steel-olive. Overall exceptional quality. As a first year issue, the 1815 Capped Bust quarter is eagerly sought by both type collectors and series specialists. The issue is obtainable by early quarter standards, at least in lower circulated grades, although AU examples are scarce. The 1815 is rare in Mint State, however, especially at and above the Choice level, as here.. NGC Price Guide...\$37,500 Check out the Historical APR Record from 2011 for a PCGS Coin...\$41,400
5426	1853 Arrows and Rays Seated Liberty Quarter -- NGC MS65	\$7,500	This near-Gem specimen yields light golden-gray color over glowing mint luster, along with well-struck design elements. NGC Price Guide...\$13,000. Check out this historical APR record sale price from 1995 for a similar coin from 2003...\$54,050.
5442	1857 Seated Liberty Quarter -- PCGS MS66 CAC	\$4,900	Beautifully Toned
5510	1878-S Seated Liberty Quarter -- NGC MS65	\$10,500	Pop 5 with none numerically finer. This Gem example is sharply struck and crisply defined with lustrous, bluish-gray surfaces and attractive olive overtones. There are no mentionable marks or abrasions to be seen on the smooth and appealing fields or devices. A diagnostic die line within the dentils above and to the left of star 8 helps identify authentic examples of this late-series, low-mintage San Francisco issue. The 1878-S is scarce to the point that deceptive counterfeits exist, although the present coin clearly confirms as authentic by NGC and by die characteristics. NGC Price Guide...\$15,500. Check out the Historical APR Record from 2013 for a PCGS coin...\$18,800
5575	1874 Arrows Seated Liberty Quarter -- NGC PF66	\$6,900	Only 6 Finer. This is a richly toned and needle-sharp Premium Gem. A 700-piece proof mintage makes the 1874 Arrows quarter available in most proof grades through the Gem level. Finer examples are scarce, and fewer than a dozen coins exceed the PR66 designation. NGC Price Guide...\$9250
5575	1874 Arrows Seated Liberty Quarter -- PCGS PR66 CAC	\$10,500	Only 4 finer at PCGS. Essential Two-Year Type. This Premium Gem proof is one of 850 pieces struck in this year. Luminous surfaces are blanketed in iridescent cobalt-blue, orange-gold, and lavender toning, and offer a cameo-like effect when the coin is tilted beneath a light. The design elements are fully brought up, and both sides are devoid of significant marks. PCGS Price Guide in PR66...\$9000 in PR67...\$17,500.

5575	1874 Arrows Seated Liberty Quarter -- NGC PF67	\$13,500	Pop 5 with 1 finer at NGC. The small arrow heads left and right of the date signified a minuscule weight change that occurred in 1873, with that design feature continuing in production the following year. At the time these coins were minted, dies were standardized with little variance from one to the next. However, the arrow heads were still hand-punched in the die, and can be used to identify different varieties. On this example, both appear to slant upward, following the curve of the border. A highly attractive Superb Gem, this lovely proof has obvious contrast and Both sides are fully mirrored with splashes of peripheral gold and iridescent toning on the obverse. NGC Price Guide...\$23,000. Check out the Historical APR Record from 2004 for a PCGS Coin...\$34,500.
5512	1880 Seated Liberty Quarter -- NGC MS67	\$5,500	Pop 12 with 5 finer. The 1880 date was well-saved by numismatists and heavily promoted by dealers despite the low, 13,600-piece mintage. This Superb Gem example displays lavish obverse toning and a lightly toned reverse. Substantial prooflike surface underpins blue, violet, and tan-gold colors on the obverse, while the reverse shows a thin lilac-gray hues. NGC Price Guide...\$6,950.
5608	1894-O Barber Quarter -- PCGS MS66	\$5,750	Tied for Finest at PCGS. Smooth, unabraded surfaces are aglow with frosty mint luster. The obverse displays deep violet, teal, and mint-green toning around the margins, while the center and much of the reverse are silver-gray. The strike is excellent. This New Orleans issue is an undeniable rarity that is well-preserved, and is almost unknown finer. PCGS Price Guide...\$7,250.
56585	1899 Barber Quarter -- PCGS PR65+	\$1,475	Mintage...846. A coin with eye appeal and desirability far superior to what one would expect even at the coveted Proof-65+ grade level. Both sides are beautifully and originally toned, the reverse especially vivid and dressed in a bold blend of iridescent pinkish-apricot, powder blue, lilac-rose and steel-olive. Steel-olive dominates on the more reserved obverse, on which side it is joined by blushes of antique silver-gray. PCGS Price Guide...\$1650. In PR66...\$2000
5656	1909-S Barber Quarter -- NGC MS67	\$9,500	Pop 4 with none finer. This San Francisco issue is a major rarity in MS67, and no finer pieces are known. This piece is brilliant and pristine, showing satiny luster that rolls through well defined central devices. An ideal Registry coin. NGC Price Guide...\$12,000.
5715	1917 Standing Liberty Quarter, Type 2 -- PCGS MS67 FH	\$7,900	Among the finest know. Only one numerically finer in MS68. The borders on this piece display dollops of fire-red, jade-green, and lemon-gold patina. The lustrous fields and devices are cream-gray. The strike is good, and neither side shows any remotely consequential contact. This first-year Type Two issue is occasionally available in MS66 Full Head, but higher-graded pieces are scarce. PCGS Price Guide...\$12,500
5722	1918-D Standing Liberty Quarter -- NGC MS66 FH	\$8,250	Pop 16 with none numerically finer at NGC. The 1918-D Standing Liberty quarter is a challenging date in high grade Full Head. This Premium Gem combines the Full Head strike with satiny luster and delicate gold, champagne, olive, and russet toning. NGC Price Guide...\$13,000.
5729	1919 Standing Liberty Quarter -- NGC MS66+FH	\$4,100	Sharp and Appealing. This coin displays amber-gold border toning around glistening ivory interiors. Shield and head detail are sharp. NGC Price Guide in MS66 Plus...\$4,500. In MS67...\$10,250
5730	1919-D Standing Liberty Quarter -- NGC MS66	\$6,250	This Gem 1919-D quarter offers lightly toned surfaces, still bright and radiant, with intense satiny mint frost and immaculate preservation on both sides. This example is one of the finest-graded at NGC among those lacking Full Head status. NGC Price Guide...\$7,600.
5751	1924-S Standing Liberty Quarter -- NGC MS66FH	\$18,500	Pop 8 with 4 numerically Finer at NGC. Major Condition Rarity. Full Head examples of the 1924-S Standing Liberty quarter are challenging to acquire in any grade, and they are particularly scarce in Gem condition. This Premium Gem Full Head coin is conditionally rare, and only a handful of finer pieces are known. Brilliant, luminous surfaces yield thick mint frost. NGC Price Guide...\$27,500. 5779	1930 Standing Liberty Quarter -- NGC MS67FH	\$3,500	Blazing white! Only one finer between both services. NGC Price Guide...\$3500.
PCGS # Half Dollars (All Varieties)		Price	Description
6176	1837 Capped Bust Half Dollar -- NGC MS64	\$5,200	Lustrous, Choice for the Variety. Die cracks through the final stars, and clash marks in the field, combine to attribute the die marriage. The strike is sharp and you will find lustrous surfaces that are lightly toned and impressively devoid of contact. The reverse dentils remain strong. NGC Price Guide...\$5,750
6176	1837 Capped Bust Half Dollar, Reeded Edge -- NGC MS-65	\$12,500	Brief 50 CENTS Reverse Design Type. Both sides are dusted with pretty iridescent toning in vivid champagne-pink and golden-apricot. The strike is razor sharp to full. This coin and other high grade 1837 half dollars may owe their exceptional preservation to the Panic of 1837, which settled over the United States after New York City banks suspended specie payments on May 10, 1837. Bank customers could no longer exchange paper at par for specie, leaving paper money and copper coinage to carry the work of day-to-day business in most areas of the country. Millions of half dollars sat in bank vaults, despite the 1837 establishment of a bullion fund by Act of Congress that allowed the U.S. Mint to produce silver coins without waiting for deposits of bullion. By the time the panic subsided, allowing silver coins to reenter circulation, few Gems were left among the bank stockpiles. Today, more than 90% of Mint State 1837 halves certified by PCGS and NGC grade MS-64 or lower. NGC Price Guide...\$17,850. Check Out this historical APR record sale price for a similar coin of the
6243	1843 Seated Liberty Half Dollar -- NGC MS65	\$6,500	Pop 4 with only one finer among all varieties. The 1843 half eagle dollar is rare at the Gem level regardless of variety. This variety represents the only use of this shattered reverse die, which shows a network of heavy die cracks that is reminiscent of a spider's web. The obverse die is also cracked around the periphery. This coin is featured on the cover of the reference book -- A Register of Liberty Seated Half Dollar Varieties, Volume V. The present coin displays luminous, frosty mint luster and delicate champagne tinting. The strike is sharp, and each side showcases outstanding preservation. NGC Price Guide...\$9,375.

340402	1861-Dated CSA WM Half Dollar/1879 Scott Restrike -- NGC MS64PL	\$10,500	With only four Original Confederate States half dollars in existence the demand for these popular mementoes far outpaced the minuscule supply. This is a curious phenomenon when one considers that almost all the collectors who were interested in CSA halves and cents lived in northern states. J.W. Scott & Co. recognized this demand for these collectibles and purchased the original reverse die from Ebenezer Mason in 1879. Then they bought 500 1861-dated halves (allegedly 1861-O, but who knows?), planed off the reverse of the 1861 halves, struck the now-blank reverse with the CSA reverse die, and voilà! a Restrike 1861 Confederate States half dollar. Sales were brisk, and these Restrikes have remained popular through the ensuing 142 years. NGC Price Guide in MS64 Non-PL...\$15,000.
6268	1852 Seated Liberty Half Dollar -- NGC MS66+	\$13,000	Only 2 numerically finer. Both in MS67. This remarkable GEM is the second FINEST graded example for this lower mintage date. Only 77,130 were struck for commerce and precious few were saved at the time of issue. There are just two graded higher at NGC, and there is nothing finer than MS66 at PCGS. Distinctive splashes of gold on the obverse will serve to identify this GEM beauty. Sharply struck, the details exquisitely executed and enlivened by bold satiny brilliance. The eye appeal is excellent in every way. NGC Price Guide in MS66...\$17,500. In MS67...\$30,000. Greysheet...\$12,500.
6279	1854 Arrows Seated Liberty Half Dollar, Mint Error. Obv. Struck Thru -- NGC MS-66	\$10,500	Pop 2 with only 2 finer at NGC. A Gem example of this two year only type. Sharply struck and lustrous, both sides have a delicate russet-olive tone. The obverse shows a nearly circular depression in the lower left obverse field by star 13 and Liberty's foot, where something came between the die and the planchet creating the struck through area noted by NGC. No NGC Price Guide Information available. Check out this historical APR record sale price for a PCGS coin from 2008...\$29,900.
6343	1873 Arrows Seated Liberty Half Dollar, Small Arrows -- PCGS MS65	\$11,500	Pop 17 with 5 finer at PCGS. PCGS Posder Blue Label Smooth and satiny surfaces are brilliant and offer strong eye appeal. Well struck with nice definition of even the finest details. The With Arrows half dollars of 1873 and 1874 are quite scarce in Gem Uncirculated grades; indeed this is one of just 22 graded at the MS-65 level or finer by PCGS, which total tops out at "just" MS-66. PCGS Price Guide...\$14,000.
6355	1877 Seated Liberty Half Dollar, Type II Reverse -- PCGS MS66	\$5,250	Pop 19 with 14 finer. Powder blue PCGS Label. Intensely lustrous in a satin to softly frosted finish, this delightful upper end Gem also offers razor sharp striking detail throughout the design. Expertly preserved surfaces are brilliant apart from a few blushes of pale champagne-apricot iridescence that are a bit more prevalent on the reverse. PCGS Price Guide...\$5,000.
6358	1878 Liberty Seated Half Dollar -- PCGS MS66	\$9,500	Pop 8 with 3 Finer at PCGS. Breathtakingly Beautiful Gem Mint State 1878 Half Dollar. Outstanding quality and eye appeal in a Liberty Seated half dollar of the With Motto design type. Both sides deliver undeniable originality in the form of vivid toning. Fully lustrous with a razor sharp strike. Back in 2014, a CAC coin sold for \$21,150. PCGS Price Guide...\$12,500.
6435	1874 Arrows Seated Half Dollar -- NGC PF65	\$8,500	Only nine finer. A beautiful Arrows type coin in proof format. Exquisite toning that flows to gorgeous silvery centers on both sides of the coin. NGC Price Guide...\$10,500.
86364	1882 Seated Liberty Half Dollar -- PCGS MS65 PL	\$5,250	Pop 1 only certified coin at PCGS. The unique Proof-like Mint State 1882 certified by PCGS, a brilliant coin that allows full appreciation of appreciable reflectivity in the fields. The design elements are sharply defined and frosty, all areas expectably well composed at the Gem Uncirculated grade level. Production of circulation strike half dollars amounted to only 4,400 coins in 1882, all of which are attributed to the Philadelphia Mint. This is certainly one of the most desirable survivors, and it is destined for inclusion in an advanced cabinet. PCGS Price Guide...\$8,000.
6476	1896-S Barber Half Dollar -- PCGS MS64	\$3,250	Like the 1896-S Barber quarter, this half dollar issue is a better date in the series. Examples are scarce but obtainable in near-Gem condition. Soft mint luster radiates beneath shades of deep steel-gray patina. PCGS Price Guide...\$5000.
6488	1900-S Barber Half Dollar -- PCGS MS64	\$3,200	The 1900-S is a scarcer date in the Barber half dollar series, seldom offered in any Mint State grade. This Choice example represents one of the more often seen grades, although it is still rare this fine, and higher-grade pieces are few and far between. Satiny luster complements a bold strike. Dusky steel-gray, olive, and gold toning attests to the originality of the surfaces. PCGS Price Guide...\$4000
6489	1901 Barber Half Dollar -- PCGS MS65	2250	Pop 15 with only 8 finer at PCGS. Medium rich tones. CDN Collectors Price Guide...\$2380
6507	1906-S Barber Half Dollar -- NGC MS65	\$3,000	Nice Medium Tones
6527	1913 Barber Half Dollar -- MS65 CAC	\$4,950	Pop 10 with Only One finer. Beautiful rose-gray patina blends with smooth, frosty luster. The surfaces are expertly preserved, as befits the assigned grade, and the strike is bold to sharp throughout. At the CAC-approved Gem level, this key date Philadelphia Mint issue is undeniable as a condition rarity. PCGS Price Guide in MS65 Non-CAC...\$5000. In MS66...\$9500.
6529	1913-S Barber Half Dollar -- PCGS MS66	\$7,600	Pop 9 with one finer at PCGS. From a small mintage of 604,000 pieces, the 1913-S Barber half dollar is a prime condition rarity at the MS66 grade level. This spectacular Premium Gem exhibits well-detailed design elements, with just a touch of the usual softness on the shield point. The well-preserved surfaces show subtle hints of lavender-gray toning. PCGS Price Guide...\$9,500. Check out this historical APR record sale price for a similar coin from 2014...\$15,275.
6530	1914 Barber Half Dollar -- NGC MS65	\$5,250	Pop 11 with only one finer. NGC Price Guide...\$6500.
6575	1918-D Walking Liberty Half Dollar -- PCGS MS64	\$4,500	Light Attractive Tones
6575	1918-D Walking Liberty Half Dollar -- PCGS MS64+	\$6,000	Lightly toned in iridescent gold on portions of the obverse, this lustrous and smooth-looking example is very close to a full Gem rating. The 1918-D is more difficult to locate in Mint State than such other issues as the 1917-D Obverse Mintmark, 1917-S Reverse Mintmark, 1918-S and 1927-S. Given the paucity of Gems in today's market, this premium Choice example represents excellent value. PCGS Price Guide in MS64 Plus...\$6,500. In MS65...\$40,000. One sold in NGC MS64 back in 2016 for \$15,294.

6576	1918-S Walking Liberty Half Dollar -- NGC MS65, CMQ	\$9,500	Only 3 Finer. Uncommonly well defined with an overall smooth appearance, this is an impressively struck and conditionally rare 1918-S half dollar. Both sides are visually appealing with a brilliant-white appearance to intense satin to softly frosted luster. NGC Price Guide...\$14,000. Check Out this historical APR record sale price from 2013 for a PCGS coin...\$21,000.
6577	1919 Walking Liberty Half Dollar -- PCGS MS66	\$14,500	Only 6 finer at PCGS. Light toning on obverse and reverse. Instantly recognizable as a key date issue, the 1919 has one of the lowest mintages in the Walking Liberty half dollar series with just 962,000 coins struck. It is ninth rarest in Mint State of the 26 issues between 1916 and 1933. PCGS Price Guide...\$21,750. Check Out this historical APR record sale price from 2015 for a similar coin...\$32,900.
6578	1919-D Walking Liberty Half Dollar -- PCGS MS64	\$18,700	Here's a Choice Uncirculated example of this key date. It's untoned with champagne-pink iridescence that is not readily evident under more casual viewing. At the MS-64 level certified by PCGS, this coin would make an impressive addition to an advanced collection. PCGS Price Guide...\$32,500. 6579	1919-S Walking Liberty Half Dollar -- NGC MS65+	\$22,500	Only nine numerically finer at NGC. This San Francisco issue is among the more challenging acquisitions in the series for Registry collectors. Although not as rare in Gem condition as the Denver issue of this year, it is scarce in this grade. Finer examples are rare. This coin displays brilliant, satiny mint luster. Overall definition is pleasing. An excellent Registry coin candidate. NGC Price Guide in MS65 Plus...\$25,500. In NGC MS66...\$36,000.
6587	1927-S Walking Liberty Half Dollar -- NGC MS65	\$7,250	Only 10 finer at PCGS. A premium well struck quality Gem, this lovely coin boasts fulsome mint frost and uncommonly smooth surfaces even for the MS-65 grade from PCGS. Both sides are richly original in preservation, as well, with mottled toning in copper-russet. PCGS Price Guide...\$11,250.
6613	1941-S Walking Liberty Half Dollar -- NGC MS67	\$14,500	None Finer at either service. Here is an overall brilliant and pearlescent beauty, with just subtle traces of champagne-gold iridescence. Softly frosted luster is seen throughout, the strike is sharp to full, and the surfaces are as pristine as would be expected for the assigned grade. Struck on the West Coast on the very cusp of World War II, the 1941-S is the undisputed key date issue in the popular Walking Liberty half dollar "short set" of 1941 to 1947. CDN Greysheet...\$32,000
6691	1950 Franklin Half Dollar -- NGC PF65+ Ultra Cameo	\$39,500	Pop 1 with 8 Finer. Here is an exceptionally well produced and preserved example of a key date Proof Franklin half dollar issue. Untoned surfaces set off the remarkable Ultra Cameo finish. Silky smooth and virtually pristine, even the finest collection of this popular 20th century series would be greatly enhanced by this lovely Gem. The 1950 is not only the first Proof half dollar of this type, but it is also the most challenging to collect. NGC Price Guide (Common Designation)...\$40,000
6691	1950 Franklin Half Dollar -- NGC PF68	\$16,500	Pop 42 with one finer at NGC. None Finer at PCGS. Flashy mirrors and brilliant surfaces show only moderate contrast, yet this beautifully preserved Superb Gem proof is an eye-ful. The pinpoint sharp strike complements impeccable fields and devices. NGC Price Guide...\$30,000.
6692	1951 Franklin Half Dollar -- NGC PF68	\$7,500	One Numerically Finer in the non-cameo category. This high-end proof is sharp and virtually flawless -- a conditional rarity in this lofty grade. Only one coin is reported numerically finer -- a PR69 non-Cameo NGC piece.
6692	1951 Franklin Half Dollar -- NGC PF68+	\$12,500	Pop 3 with the 68+ designation and only 1 numerically finer between both services and it's at NGC. At the threshold of numismatic perfection, this gorgeous Superb Gem is fully untuned with intense silver-white surfaces. There is a modest satin texture to the design elements, although there is not quite enough contrast with the mirrored fields to support a Cameo designation. A beautiful specimen and a conditionally scarce survivor of the scarcest Proof Franklin half dollar issue after only the first year 1950.
PCGS #	Silver Dollars (All Varieties)	Price	Description
6889	1800 Dotted Date Dollar -- NGC MS65	\$135,000	Our research shows this as the Single finest in this Variety at NGC. It is truly an Important Guide Book Variety. The 1800 Draped Bust silver dollar issue has two renowned varieties that attract collector attention. The Dotted Date variety, displays an array of tiny die breaks and lumps around the first 0 in 1800. This splendid Gem Uncirculated example is the former Cardinal Collection coin, recognized as the finest Dotted Date dollar known. The surface quality and originality of this early dollar is remarkable. This is a well-centered dollar, showing complete denticles on each side and no troubling adjustment marks. There is sumptuous toning and this coin is layered in multiple shadings of deep-blue and gray over a base of light golden patina that is prominent at the peripheries. Satiny mint luster glows throughout. The coin is sharply struck in all areas of the design -- particularly Liberty's hair curls and at the obverse stars. NGC Price Guide for a common date...\$250,000
7008	1865 Seated Dollar, Rare OC-P1 Variety -- PCGS PR65	\$9,500	Only 8 finer at PCGS. This is a truly breathtaking example of the No Motto Liberty Seated dollar type in Proof format. Richly original surfaces are bathed in dominant olive-copper patina through which vivid undertones of cobalt blue, pale pink and champagne-apricot shine as the coin dips into a light. Fully struck, as befits the method of manufacture, with a silky smooth appearance that borders on pristine. Just 500 examples of this Civil War issue were struck, and considerably fewer pieces survive for collectors today. PCGS Price Guide...\$14,500. Check out this historical APR record sale price from 1996 for a similar coin...\$21,150.
7086	1879-CC Morgan Dollar, GSA -- PCGS MS63+	\$11,500	This piece is brilliant, frosty. A sharp strike completes the ensemble.. The 1879-CC Morgan dollar is the second scarcest issue in the series from this mint, trailing only the key-date 1889-CC. Most of the Mint State population known today came from the 4,123 pieces distributed in the GSA sales of the early 1970s.

97191	1889-CC Morgan Dollar -- PCGS MS64DMPL CAC	\$240,000	None Finer. Pop 6 between both services with the well-deserving CAC designation. This piece is brilliant and starkly contrasted, showing cameo surfaces and liquid-like fields. Frosty white luster adorns the devices, which are sharply struck. A distinct lack of notable abrasions gives this piece eye appeal beyond its technical grade. A beautiful 1889 Carson City Morgan dollar. It is the scarcest Carson City issue in the series and is one of the two major key dates overall along with the 1893-S. The 1889-CC is also famously one of the few Carson City issues that was not represented in any significant quantity in the GSA sales of the 1970s. Most Mint State pieces that survive are believed to have come from certain small hoards or bags from decades ago. The 1889-CC reigns supreme as the key date in the set of 'CC' silver dollars. PCGS Price Guide in MS64DMPL (Non-CAC)...\$255,000.
7192	1889-O Morgan Dollar -- PCGS MS65	\$2,750	Attractive toning on the obverse with a blazing white reverse. PCGS Price Guide...\$3000.
7225	1893-O Morgan Dollar -- PCGS MS65+ DMPL CAC	\$375,000	None Finer. Tied for finest known at PCGS. Well-deserving of the CAC designation. This remarkable Gem is exceptional for the issue. The finish is semiprooflike in sheen with richly frosted devices and hints of reflectivity in the fields. Each side remains wholly brilliant, and neither exhibits a single noteworthy abrasion. This is a coin that is earmarked for inclusion in the finest Morgan dollar collection. With the lowest mintage among all New Orleans branch mint Morgan dollars (300,000 pieces), the 1893-O is a popular coin and a series semi-key.
7327	1892 Morgan Dollar -- NGC PF66	\$7,700	An attractive toned, conditionally scarce example of this proof Morgan issue, showing ocean-blue, green-gold, and lilac toning throughout the deeply reflective fields and frosty devices. NGC Price Guide...\$9000.

87482	1903 LA Purchase, Jefferson Gold Dollar -- PCGS PR65CAM	\$13,750	Pop 8 with 4 finer. The first 100 coins each struck of the Louisiana Purchase/McKinley and Jefferson gold dollars were proofs, accompanied by "framed affidavits" certifying their status and signed by Mint officials. This deeply mirrored, nicely contrasted example of the Jefferson type shows far more detail on the hair, face, collar, and coat than normally seen on the circulation strikes. Bright lemon-yellow surfaces host reflective fields and perceptibly frosted devices, an extremely attractive piece. PCGS Price Guide...\$21,0000
7324	1903 LA Purchase, McKinley Gold Dollar -- PCGS PR67 Cameo	\$29,500	Pop 2 with none finer at PCGS. The 1903 McKinley gold dollar has a tiny proof mintage of 100 pieces, and patience is required for a specimen in any condition to become available to the public. Everything about this desirable Superb Gem is wonderful. PCGS Price Guide...\$35,000.

7448	1905 Lewis And Clark G\$1 -- PCGS MS66	\$8,000	Only 7 finer certified by PCGS. This is the scarcer of the two Lewis and Clark gold dollar issues. Gleaming orange-gold surfaces and boldly struck devices characterize this impressive Premium Gem. PCGS Price guide...\$14,000.
7448	1905 Lewis & Clark G\$1 -- NGC MS67	\$29,500	Pop 3 with only one finer at NGC. The Lewis and Clark Exposition was held in Portland, Oregon in 1905, marking the centennial of the expedition that Meriwether Lewis and William Clark took to the Pacific Northwest. They reached the Columbia River and the Pacific Ocean in 1805. Their journey began on May 14, 1804, and continued until September 23, 1806. Congress authorized the production of as many as 250,000 Lewis and Clark gold dollars dated 1904 and 1905, but sales were dismal with just 10,000 of each distributed, plus a small additional number for assay purposes. This commentary about the 1904 Lewis and Clark gold dollars applies equally to the 1905 issue: "Hundreds of them are available in grades ranging from MS62 to MS65. Even MS66 examples are readily available, and only in MS67 does this coin become rare." The present Superb Gem is one of those rare MS67 examples. Both sides have sharp design details, pristine yellow-gold surfaces, and frosty mint luster. NGC Price Guide...\$40,000.
7448	1905 Lewis & Clark G\$1 -- PCGS MS67	\$29,500	Pop 7. None Finer at PCGS. The 1905 Lewis and Clark gold dollar is rarer in high grade than its 1904 counterpart. PCGS and NGC combined list only 10 pieces in MS67 and finer condition. This example is among the finest in a PCGS holder. The strike is sharp, and luster is vibrant, illuminating largely untouched surfaces, save for a slight graze in field before Lewis' portrait. The eye appeal of this piece owes itself to the rich coloration, which includes vivid orange-gold interiors framed by mint-gold and sun-yellow margins. PCGS Price Guide...\$45,000. PCGS #	Gold Dollars	Price	Description
7516	1851-O Gold Dollar -- PCGS MS64	\$3,450	An impressive New Orleans Type 1 gold dollar. Rich satiny frost accents rich golden color and a boldly struck design elements on both sides. Wholesome and original, this gold dollar has a lovely look. PCGS Pride Guide...\$5000.
7516	1851-O Gold Dollar -- NGC MS65	\$5,500	Pop 17 with Only 1 Finer. This piece has satiny surfaces that are dressed in pretty golden-wheat color. Fully struck. A condition rarity, this coin would make a significant contribution to an advanced numismatic cabinet. NGC Price Guide...\$9000.

7521	1853 Gold Dollar -- PCGS MS67	\$12,500	Pop 10 with only 2 Finer. Outstanding Registry or Type Coin. The 1853 gold dollar has a reputation for being readily available -- rightfully so. The Philadelphia Mint struck more than 4 million examples, of which tens of thousands of examples survive. That includes hundreds of high-grade representatives through the Gem and Premium Gem levels. However, there is no doubt that the 1853 establishes its condition-rarity bona fides in MS67. PCGS Price Guide...\$22,500.
7531	1854 Gold Dollar, Type 2 -- NGC MS65	\$22,500	Only 11 finer at NGC. Here is an elusive Gem example of the scarce Type II gold dollar, a visually stunning piece with a warm blend of apricot and honey-gold shades throughout. DID YOU KNOW? The Philadelphia Mint was the only facility to produce the Type II gold dollar in 1854, striking 783,943 pieces of the new design along with 855,502 of the Type I dollars. Taken as a whole, the Type II design is by far the scarcest of the three basic types. Anywhere from 5,000 to 8,000 remain with maybe a quarter to a third in Mint State. The true rarity of the 1854 Type II gold dollars emerges at the Gem level, where only about 50 examples remain. NGC Price Guide...\$25,000
7531	1854 Gold Dollar, Type 2 -- NGC MS66	\$33,500	Pop 9 with 2 Finer at NGC. Gorgeous Premium Gem. Did you know: The small 12.7 mm diameter of the Type I gold dollar brought about complaints of it being easy to lose. To address this, the diameter to 14.3 mm for the Type II, but he also completely revised the design, replacing it with an Indian head with a crown of feathers resembling his design on the newly introduced three-dollar gold piece. He also moved the inscription UNITED STATES OF AMERICA to the obverse from the reverse. The reverse laurel wreath was replaced with the cereal wreath used on the three-dollar denomination and that was later adopted for the Flying Eagle cent. NGC Price Guide...\$60,000
7532	1855 Gold Dollar, Type 2 -- NGC MS65	\$22,500	Only 12 numerically finer at NGC. Superior Strike and Eye Appeal. This coveted and lovely Gem 1855 gold dollar offers superior technical quality and outstanding visual appeal for this conditionally challenging gold dollar type. Frosty surfaces are fully lustrous and display wisps of iridescent pinkish-rose to a base of warm golden-apricot color. Sharply struck overall. This coin has exceptional eye appeal. NGC Price Guide...\$30,000.
7544	1857 Gold Dollar, Type 3 -- NGC MS66	\$5,850	Pop 8 with 1 Finer at NGC. PQ! The 1857 gold dollar is an early Type Three issue that is relatively plentiful in grades through MS64. However, higher-grade pieces are rare. This Premium Gem example is among the finest at NGC (as of 5/23) . It's fresh and original throughout. Sharp detail characterizes the wreath and Liberty portrait, while vibrant cartwheel bands rolls through the fields. NGC Price Guide for this PQ coin In one grade higher in MS67...\$17,250.
7544	1857 Gold Dollar, Type 3 -- PCGS MS66	\$5,850	Only five finer at PCGS. a yellow-gold beauty with frosted-satin luster and rich orange-peach overtones. This Premium Gem example is among the finest at PCGS. It's fresh and original throughout. 7637	1887 Gold Dollar, Centered Date -- PCGS PR67+	\$29,500	Pop 1. Here is a particularly desirable example of a rare classic U.S. Mint Proof gold issue. Thoroughly PQ, its originally preserved golden-rose surfaces also reveal delicate powder blue highlights as the surfaces rotate under a light. The finish is reflective in the fields, more frosty on the design elements, the latter with full detail from an expert strike. Smooth in hand with eye appeal to spare, even the most discerning collector will be impressed by this gorgeous upper end Superb Gem. PCGS Price Guide...\$32,500.
87638	1888 Gold Dollar -- NGC PF65+ Cameo	\$9,500	Pop 11 with 19 finer at NGC. This is one of 1,079 proof gold dollar struck in 1888, the year before the denomination was abolished. Probably fewer than 225 examples survive. Definition is expectedly razor-sharp and contrast is bold. Premium quality Gems such as this are in great demand from today's quality conscious numismatists. A beautiful specimen in all regards, this high end Gem is sure to please. NGC Price Guide...\$12,750.
87638	1888 Gold Dollar -- NGC PF67+ Cameo	\$29,500	Pop 2 with 2 numerically Finer at NGC. One of the finest seen from the modest mintage of 1,079 pieces, and with magnificent eye appeal. Boldly reflective mirrors dance and beam all over; they are ultra flashy and totally smooth, devoid of any distractions. Terrific eye appeal complements the high technical grade. NGC Price Guide PF67 (Common Designation)...\$23,500.
PCGS #	\$2.5 Gold Quarter Eagles	Price	Description
7647	1796 With Stars Capped Bust Quarter Eagle -- NGC AU50	\$89,500	Less than 50 know. All 1796 quarter eagles are rare, although the 1796 Obverse Stars variety -- with a mintage estimated at only 432 pieces -- is considerably rarer than the 1796 No Stars varieties. Both sides are a bit glossy, with some remnants of original proof-like fields that remain visible, primarily on the reverse. There are no single marks one might consider distracting. Likewise, there are no Mint-made adjustment marks that tend to accompany the 1796 Stars issue. The strike is bold, the rims unblemished, and the dentils are complete around each side. Overall this is a nice, high grade example of this very rare early quarter eagle. Greysheet Bid...\$105,000. NGC Price Guide...\$125,000
7649	1798 Capped Bust Left Quarter Eagle, Wide Date, 5 Berries -- NGC MS61	\$75,000	Pop 2 with 3 finer at NGC. This coin is a noteworthy certified Mint State example of the scarce 1798 BD-2 early quarter eagle die pairing. The strike is remarkably bold throughout. Details are clear on Liberty's central hair curls, as well as throughout the shield lines on the reverse. The mintage for the 1798 BD-2 variety is believed to have constituted between 480 and 838 coins of the 1,094 pieces reportedly struck bearing this date. A mere 45 to 55 survivors are accounted for in numismatic hands, confirming this as one of very scarce die varieties in the early quarter eagle series. Grey Sheet...\$105,000. NGC Price Guide...\$165,000! Last one sold in this grade with a CAC sticker for a record \$129,250.
7653	1805 Capped Bust Left Quarter Eagle -- NGC MS61	\$29,000	Pop 9 with 6 finer at NGC. Low Mintage 1805 Quarter Eagle. This piece exhibits a softly frosted texture to surfaces that retain nearly complete mint luster. Warm medium olive-gold color throughout, isolated viewing angles reveal intermingled pinkish-rose highlights that provide further appeal. Well struck with most design elements bold, this is a rare certified Mint State example of both the type and issue. NGC Price Guide...\$45,000.

7655	1806/5 Capped Bust Right Quarter Eagle, Stars 7x6 -- NGC AU58	\$55,000	Pop 3 with 5 Finer at NGC. Rarely Offered 1806/5 Stars 7x6 Quarter Eagle. An appealing example of this key date in the challenging early quarter eagle series. Warm medium gold surfaces with underlying olive evident under a light. Plenty of frosty luster remains, and the strike is well centered and overall bold. With an estimated mintage of just 480 pieces, the 1806/5 is one of the most elusive issues in the Capped Bust Right quarter eagle series. It is one of the few varieties in U.S. coinage history struck from an obverse that was previously used in production of a different issue (1805 quarter eagle), annealed again, overdated, and then used to strike coins of another issue. Just 25 to 35 examples are believed extant in all grades. NGC Price Guide in AU58...\$77,500. NGC Price Guide In MS60...\$110,000!
7701	1839-O Classic Head Quarter Eagle -- NGC MS63	\$39,500	Pop 13 with 7 finer at NGC. This vividly toned example is awash in a warm blend of reddish-honey and deep orange-gold. Satiny luster is full and lively, as befits the impressive Mint State grade from NGC. Sharply defined overall, a significant positive in an early date New Orleans Mint coin, this is certainly a premium quality example of a challenging issue. The 1839-O is a numismatically significant issue with tremendous appeal for advanced gold enthusiasts. It is the first New Orleans Mint quarter eagle, the only one of the Classic Head design type, and the only one that displays the O mintmark on the obverse. NGC Price Guide...\$47,500.
7803	1866 \$2.5 Quarter Eagle -- NGC AU55	\$7,500	Pop 5 with 15 finer at NGC. Circulation strike quarter eagle production at the Philadelphia Mint remained limited in 1866 as gold specie payments had not yet resumed despite the cessation of hostilities in the Civil War the year before. While not quite as rare as the 1864 or 1865, the 1866 is still an elusive quarter eagle that can be difficult to obtain in any grade. NGC Price Guide...\$9,000.
7852	1900 \$2.5 Liberty -- NGC MS66	\$1,250	Nice fresh original and lustrous. NGC Price Guide...\$1500.
7947	1914-D \$2.5 Indian -- NGC MS65	\$14,750	None Finer. This piece displays exceptionally attractive, glistening mint luster. Strike sharpness is outstanding, adding to the eye appeal. The 1914-D is one of the condition keys of the Indian quarter eagle series, plentiful in grades through MS64 and available for a modest price, but scarce at the Gem level. One recently sold with a CAC sticker for \$29,375. Greysheet Bid...\$15,000
7959	1910 \$2.5 Indian -- PCGS PR66	\$42,500	Only 14 finer between both services. Of the 682 proof quarter eagles struck in 1911, only 90 to 110 examples are believed to have survived to the present day. The surfaces are bright throughout; however, what is unusual with this proof is rather than the uniform yellow-gold color usually seen, this piece is covered in rich reddish-gold patina with lilac in the recessed area on the Native American's neck. This suggests that this particular coin may have resided for many years in the Mint-issued sulphur envelope, as proof sets were packaged in these years. An interesting and vividly colored matte proof quarter eagle. PCGS Price Guide...\$51,500.

8052	1888 Three Dollar Gold Piece -- NGC PF66 Cameo	\$39,500	Only 4 Finer at NGC. Here is a remarkable Cameo proof specimen with fully brilliant yellow-gold surfaces. The fields are deeply mirrored and admirably display the boldly defined and frosty devices. In 1888 the Philadelphia Mint struck 5,000 business strikes and 291 proofs of the 1888 three dollar gold piece. Of the proofs, it is estimated that only 110 to 130 examples have survived. 8084	1803/2 Capped Bust Right Half Eagle -- NGC MS63	\$25,000	Only 8 finer among all varieties at NGC. This is the finest known of this variety. Popular Guide Book Overdate, BD-4. This coin is a spectacular Select specimen, with sharply detailed design elements throughout. Some faint planchet adjustment marks are evident in the obverse dentils and a spidery die crack travels through the top of the letters LIBE in LIBERTY. The lustrous orange-gold surfaces and provide outstanding eye appeal. This coin should find a home in a fine collection of early half eagles. NGC Price Guide...\$37,500. 45620	1806 Capped Bust Right Half Eagle. Round-Top 6, Stars 7x6 -- PCGS MS63	\$25,500	Rich orange surfaces are further enhanced by delicate silver-olive overtones and deep rose accents. Both sides retain ample luster that is satiny overall with intermingled frost. Well centered in strike with complete, essentially uniform denticulation. A handsome and desirable example with good appeal. PCGS Price Guide...\$40,000. Check out this historical APR record sale price from 2008 for a similar coin...\$57,500..
8092	1807 Draped Bust Half Eagle, Large Reverse Stars -- PCGS MS63+	\$29,500	Only 10 finer at PCGS. From the Bass Collection. This lovely premium Choice example will appeal to both advanced early gold specialists and high quality type collectors. Soft satin luster blends with handsome deep orange-apricot color, the appearance attractively original, and uncommonly so for a pre-1834 U.S. Mint gold coin. The strike is remarkably sharp for the type, as well, with both the central and peripheral features well defined. Exceptionally attractive. PCGS Price Guide...\$45,000.
8101	1807 Capped Bust Left Half Eagle -- NGC MS62	\$14,000	Here is a vivid orange-gold specimen with deep olive undertones evident as the surfaces rotate under a light. Smartly impressed with razor sharp to full definition throughout, lustrous and frosty features are impressively smooth in hand for the assigned grade. Sure the please the advanced gold enthusiast. NGC Price Guide...\$20,000.
8101	1807 Capped Bust Left Half Eagle -- PCGS MS64	\$31,500	Only 6 finer at PCGS. Housed in an earlier PCGS powder blue Label. This near-Gem example is frosty and highly lustrous. It makes a splendid introduction to the short-lived type, which only lasted until 1812. A sharp strike is seen throughout both sides, with Liberty's portrait crisp and bold, with every star needle-sharp. PCGS Price Guide.....\$45,000. 8108	1810 Large Date, Large 5 Half Eagle -- NGC AU58	\$10,250	Here's a Choice AU example of a popular early half eagle variety that will no doubt find its next home in an advanced gold type set. Light golden yellow patina blankets surfaces that retain plenty of satiny mint luster, generally in the protected areas within and around the devices. It's estimated that 500 to 750 pieces exist. NGC Price guide...\$12,250.

8108	1810 Large Date Half Eagle -- NGC MS64	\$34,000	Only 5 numerically finer at NGC. A splendid near-Gem that offers an intricate strike and vibrant mint luster. Struck from moderately rotated dies. Most early Federal gold coins were exported and melted, and many survivors were cleaned or used in jewelry. Type coins of the present quality are seldom encountered. The 1810 half eagle has been a favorite with collectors since the earliest days of the hobby. NGC Price Guide...\$42,750. 8110	1811 \$5 Capped Bust Half Eagle, Tall 5 Denomination -- PCGS MS63	\$26,500	Pop 1 with 2 finer of this variety at PCGS. Overall, 175 to 250 know in this variety. This brilliant and lustrous Select Uncirculated example displays a sharp strike on both sides. Attractive green-gold color deepens slightly at the centers and flatters the overall sharp strike. All pre-1834 gold coins are scarce, if not outright rare by definition. PCGS Price Guide...\$30,000.
8145	1825/4/1 \$5 Liberty -- PCGS PR62	POR	Price on request. This piece is extraordinary. The obverse is fully struck with strong cameo contrast. The mirrored fields are greenish-gold, while the lustrous devices are brilliant yellow. The reverse also features a gold strike with brilliant and frosty light yellow-gold surfaces. A trace of orange toning is limited to the E of UNITED. In our opinion, the reverse, if graded separately would qualify at the MS64 or MS65 level. This impressive half eagle is the third finest of three known, meaning it is the "affordable" proof 1825 Over Partial 4 half eagle. This example from the Harry W. Bass, Jr. Collection is a one-sided proof with the obverse showing full proof characteristics, and the reverse showing no proof attributes. While there are those in the numismatic field that suggest one-sided proofs are impossible, this coin and several other early proof half eagles suggest otherwise. There are one-sided proofs of other denominations known as well. The obverse die was highly polished and one side of the planchet was specially prepared to receive the obverse die impression. That combination of procedures is not coincidental. This piece and the other proof 1825/4 half eagles were carefully and specially produced at the Mint.
8231	1847 \$5 Liberty -- NGC MS64	\$10,500	Only one finer among all varieties at NGC. This is an exceptionally well preserved, aesthetically pleasing near-Gem 1847 half eagle. Smartly impressed with sharp to full striking detail throughout, both sides also offer full frosty mint luster. Vivid golden-apricot color and a very smooth appearance enhance the appeal. NGC Price Guide...\$12,500. Check out this historical APR record sale price from 1995 for a PCGS coin...\$25,300.
8359	1882 -CC \$5 Liberty -- NGC AU58	\$7,250	Nice fresh and original. Almost Uncirculated specimens, are very scarce, NGC Price Guide...\$8925.
8359	1882 -CC \$5 Liberty -- PCGS/NGC MS61	\$15,500	This is an impressive Mint State example with sharp definition on all design elements. Fresh original and Lustrous gold surfaces. PCGS Price Guide...\$20,000. Check out this historical APR record sale price from 1999 for a PCGS coin...\$55,220.

8385	1893-O \$5 Liberty -- PCGS MS63	\$6,900	Only 1 finer at PCGS. A delightful half eagle with frosty golden-rose surfaces on both sides. Well struck and sharp, the luster is full with a softly frosted texture. Despite its status as the second most plentiful New Orleans Mint half eagle, the 1893-O is scarce in an absolute sense with a mintage of 110,000 coins. PCGS Price Guide...\$7500.

98480	1885 \$5 Liberty -- NGC PF65 Ultra Cameo	\$45,000	Pop 3 with 4 finer at NGC. Truly a classic rarity! The Proof mintage for this issue is a paltry 66 pieces, only 22 to 26 of which are believed extant in all grades. This is a splendid Gem, both sides possess profound field to device contrast that readily upholds the coveted Ultra Cameo designation from NGC. Reflective fields exhibit the rippled "orange peel" texture that Proof gold collectors find so appealing, and the devices are fully struck, even the most intricate elements of the design. This beautiful specimen would serve as a highlight in the finest Proof gold cabinet. NGC Price Guide...\$51,000. NGC Price Guide...\$51,000. 8515	1909-O \$5 Indian -- NGC MS63	\$105,000	Pop 8 with 9 Finer at NGC. Remarkable absolute and condition rarity. This is an extraordinarily attractive example of this major rarity. The surfaces are original, with each side showing intermixed bright gold and lilac patina. The strike is strong throughout. DID YOU KNOW? The 1909-O half eagle is one of the rarest regular-issue coins from the 20th century. Only 34,200 pieces were issued in this final year of production in the New Orleans Mint. While occasionally available in VF through AU grades, the number of Uncirculated pieces is always in extremely short supply. In fact, the number certified in Mint State can only be compared to the legendary 1929. NGC Price Guide...\$110,000.

8521	1911-D \$5 Indian -- PCGS MS61	\$8,500	Blended honey-gold and soft pinkish-rose patina is seen on both sides of this Mint State half eagle. Frosty surfaces are suitably lustrous for the assigned grade with a bold to sharp strike to most design elements. PCGS Price Guide...\$10,000
8521	1911-D \$5 Indian -- PCGS MS62	\$13,500	Here is an attractive and fresh Mint State example of a key date Indian half eagle issue. Bathed in medium gold patina, both sides are lustrous with bold to sharp striking detail over all design elements. Second only to the 1909-O in terms of rarity and popularity in the Indian half eagle series, the 1911-D has long since gained appreciation as the key issue that it is. While moderately available at the higher circulated preservation levels, in Mint State the issue becomes a remarkable condition rarity, as well. PCGS Price Guide...\$20,000. 8526	1913-S \$5 Indian -- PCGS MS63	\$10,750	This San Francisco boasts a mintage of 408,000 coins, but Mint State examples are much scarcer than one would expect. The majority of the coinage was distributed into circulation, and the majority of the coins preserved from that end were roughly handled in bank bags before entering numismatic curatorship. The typical Uncirculated coin grades MS61 or MS62. Select pieces like the present are scarce, and finer coins are rare. PCGS Price Guide...\$15,000.

8529	1914-S \$5 Indian -- PCGS MS61	\$2,000	Nice and fresh.
8529	1914-S \$5 Indian -- PCGS MS62	\$4,000	Smooth and lustrous for the assigned grade. PCGS Price Guide...\$6750.
8529	1914-S \$5 Indian -- PCGS MS63	\$10,500	Superior striking quality and surface preservation highlight this significant rarity among Indian half eagles. The devices are uniformly bold with most features sharp. PCGS Price Guide...\$14,000
8531	1915-S \$5 Indian -- PCGS MS62	\$7,250	Lustrous medium gold surfaces are boldly to sharply defined over the focal features. The S mintmark is fully outlined and readily appreciable. One of the leading condition rarities in the Indian half eagle series of 1908 to 1929, the 1915-S (just 164,000 pieces produced) is scarce to rare in all Mint State grades. 8559	1797 Capped Bust Right Eagle, Heraldic Eagle, BD-3 -- NGC AU55	\$37,500	The bright honey-wheat glow of this piece is enhanced by subtle olive undertones. Frosty luster remains in abundance. Boldly defined, this is an overall attractive and satisfying example of this rare variety. The 1797 BD-3 is the scarcest of the three known Heraldic Eagle varieties of the year, with perhaps as few as 40 examples remaining. NGC Price Guide for all varieties...\$41,000. 8559	1797 Capped Bust Heraldic Eagle -- PCGS MS61	\$75,000	Unique in the Capped Bust Right, Heraldic Eagle Series. Significant Long, Thick Neck Reverse Style. This is a well produced example with most design elements boldly to sharply defined. This is the only known obverse die state of this variety, and the latest known for this workhorse die that was also used to strike the 1797 BD-2 and BD-3 eagles. In this die state, there are prominent die cracks through the second digit 7 in the date. BD-4 is the most readily available die marriage of the 1797 Heraldic Eagle ten, just barely edging out BD-2 for this distinction. This is a variety with no more than 110 coins believed extant which is scarce when viewed in the wider context of U.S. numismatics.. PCGS Price Guide...\$100,000. 8559	1797 Capped Bust Right Heraldic Eagle, -- NGC MS62	\$82,000	Lustrous Heraldic Eagle Example. Probable Condition Census Quality. It's estimated that only 90 to 110 pieces extant. This is the variety most likely to be represented by a Mint State coin, although any 1797 eagle in Uncirculated condition is a rare and sought-after item, particularly among type collectors. Most such pieces reside in MS61 and MS62 condition with finer coins prohibitively rare. The present MS62 representative stands out among its peers with a sharp, even strike that produces bold central and peripheral detail. The bright yellow-gold surfaces have light chatter in the fields that limits the grade but are without singular abrasions. The reverse exhibits an appealing semi-prooflike reflection in the fields. 8562	1799 Capped Bust Right Eagle, BD-10, Large Obverse Stars -- PCGS MS61	\$32,500	PCGS reports that Only 7 coins of this variety have been certified. This piece is sharply struck for the type and lightened with rose-gold accents. The fields are semi-reflective, more so on the reverse than the obverse. Above the Choice level, the 1799 eagle is a significant condition rarity with only a few Gems. Representing the finest realistically obtainable for most gold collectors, this MS-61 example represents an important opportunity for an early gold collection. It's estimated that between 300 and 400 survivors of this variety exist today. PCGS Price Guide...\$45,000. Check out this historical APR record sale price from 2022 for a similar coin...\$51,600.
8562	1799 Draped Bust Eagle, Small Obverse Stars, BD-7 -- NGC MS62	\$39,500	Excellent 18th Century Type Coin. The BD-7 date is irregularly aligned, with the 7 leaning right and the second 9 high. Orange accents at the margins enhance attractive, medium-gold color. You will find frosted devices with no adjustment marks to be seen. Vibrant mint luster exists throughout both sides. 8564	1801 Capped Bust Right Eagle. BD-2 -- NGC AU58	\$23,500	Pop 2 with 4 finer among coins in this variety. This bright and flashy piece has much to recommend it to high grade type collectors. Abundant frosty luster remains, enhanced by appreciable semi-reflective qualities in the fields. Color is a bright golden-yellow that yields to slightly warmer honey-gold as the coin rotates away from direct lighting. NGC Price Guide...\$25,000. 8564	1801 Capped Bust Right Eagle, BD2 -- NGC MS63	\$59,500	This is the usual late die state of the obverse that has several vertical spines in the cap. These are not clash marks as some observers suggest, but rather the result of an unknown accident within during the coinage process. Some catalogers have reported that they are clash marks from the vertical shield lines on the reverse die. There are two problems with that scenario: first, they are not oriented in the same direction as the shield lines; second, they are evenly spaced unlike the shield lines. We believe that a small part from the coining press, such as a set screw or some similar part, came loose and landed on a planchet in the coining press as the dies came down to strike the coin. That would have damaged the die and left those marks for every additional coin, including this lovely Mint State piece that has trivial, grade-consistent marks on its brilliant and lustrous light yellow-gold surfaces. 8681	1878-CC \$10 Liberty -- NGC AU58	\$79,500	Pop 3 only 2 Finer at NGC. Only 60 to 75 Known. The 1878-CC is the third rarest Carson City Eagle and it is tied as the sixth rarest issue in high grades like this. A nice original example with orange-gold color on the obverse and reverse. This ultra-low mintage date is clearly among the finest known. The last time an 1878-CC in AU58 was sold publicly was more than two decades ago. PCGS Price Guide...\$100,000.
8718	1890-CC \$10 Liberty -- PCGS MS62	\$12,500	Only 12 finer at PCGS. Attractive golden surfaces are fully lustrous with a lovely, satin to softly frosted texture. The striking detail is full throughout, and both sides are exceptionally well preserved and nearly Choice Mint State in quality. PCGS Price Guide...\$15,000.
8876	1914-D \$10 Indian -- NGC MS66	\$22,500	Pop 13 with only 7 Finer at NGC. Wow! This one is stunning. The obverse and reverse are uniform and lustrous. The strike is sharp, and the surfaces are free of any significant nicks or bag marks. While this particular date is the second most available branch mint issue of the series behind the 1910-D, in Choice Mint State or finer, the numbers tail off dramatically, and finding a high grade or even a Gem 1914-D presents a challenge. At the Mint State-66 level, this date is indeed quite rare, and this example is a single grade point behind the finest certified by NGC. NGC Price Guide...\$28,500.
8883	1930-S \$10 Indian -- PCGS MS64 CAC	\$95,000	The 1930-S is one of the most sought-after issues in the Indian eagle series. In fact, few issues in in all of 20th century U.S. gold coinage are more desirable. Small denomination gold coinage was seldom seen in circulation after World War I, as people had become accustomed to using the more convenient paper money for everyday transactions. Large denomination gold coins still had a role to play in foreign trade and as backing for paper currency, so double eagles were produced regularly throughout the 1920s to serve those needs. There was less demand for eagles, however, and after a large Philadelphia mintage of 1.4 million pieces in 1926, none were struck at any U.S. Mint until a small production of 96,000 examples was accomplished at the San Francisco facility in 1930. 8999	1883-CC \$20 Liberty -- PCGS/NGC AU58	\$8,750	Frosty and lustrous surfaces approaching Mint State preservation. Boldly struck overall with lovely golden-honey color throughout. PCGS Price Guide...\$11,000.
8999	1883-CC \$20 Liberty -- PCGS MS60	\$11,000	Nice fresh and original...with uncommonly smooth-looking surfaces for the assigned grade. Most Uncirculated examples of the 1883-CC spent time abroad in foreign holdings. Possibly, this MS60 example is one of those world travelers. The strike remains sharp on both sides, and mint luster cascades over fresh golden surfaces. PCGS Price Guide...\$15,000.

9001	1884-CC \$20 Liberty Double Eagle -- PCGS MS62+	\$19,500	A remarkably well preserved and attractive example of this popular Carson City Mint issue. Undeniably original surfaces are bathed in a blend of softly frosted luster and handsome golden-apricot color. Fully struck and aesthetically pleasing. PCGS Price Guide in MS62...\$20,000. In MS63...\$90,000!
9001	1884-CC \$20 Liberty Double Eagle -- NGC MS63	\$52,500	None Numerically Finer. A remarkably well preserved and attractive example of this popular Carson City Mint issue. Undeniably original surfaces are bathed in a blend of softly frosted luster and handsome honey-apricot color. Only 81,139 double eagles were coined at the Carson City Mint in 1884. Although most known examples are circulated, hundreds of Mint State coins also exist. Many were shipped overseas for payments that required gold. PCGS Price Guide...\$82,500.
9003	1885 \$20 Liberty -- NGC AU58	\$67,500	Pop 13 with 18 Finer at NGC. For most of the 1880s, the Philadelphia Mint concentrated much of its resources on producing the enormous number of Morgan dollars mandated by the Bland-Allison Act of 1878. The Philadelphia facility largely left the production of double eagles to the San Francisco Mint during this decade, and small double eagle mintages were the rule, rather than the exception, during this time period. Accordingly, only 751 Liberty double eagles were struck at the Philadelphia Mint in 1885. It is estimated that about 100 are known to exist. NGC Price Guide...\$85,000.
9004	1885-CC \$20 Liberty -- NGC AU58	\$31,000	Only 9,450 pieces were struck, and perhaps as few as 400 pieces survive despite some Mint State examples that have filtered back from foreign holdings in recent years.. NGC Price Guide...\$41,500

9011	1889-CC \$20 Liberty -- NGC MS61	\$18,900	The Carson City Mint produced a mere 30,945 double eagles in 1889. It's been written and characterized that Mint State examples are "very scarce," and although some specimens were undoubtedly plucked from overseas gold reserves by numismatists in subsequent years, the estimated number of Uncirculated survivors remains on the low side. 9014	1890-CC \$20 Liberty -- PCGS/NGC MS60	\$8,900	This is a wonderfully original example with plenty of luster. Otherwise honey-gold in appearance, both sides are lustrous with a smooth appearance for the assigned grade. The mintage for this popular issue is 91,209 pieces, up more than 60,000 coins from the preceding year's double eagle tally at the Carson City Mint. Face value back was \$1,824,180. Most of the 1890-CC double eagles in Mint State have come to light within the past two decades. Most pieces are in notably lower grades, usually EF or AU." Thanks to recent repatriations from foreign bank hoards, some 500 to 750 or so Mint State 1890-CC twenties are now believed extant. These are immensely popular with both double eagle and Carson City Mint enthusiasts. PCGS Price ...\$10,000
9014	1890-CC \$20 Liberty -- NGC MS61	\$12,500	This is a popular date Carson City double eagle, a pleasing Mint State coin from this old wild west mint. These large gold coins bearing the CC mintmark evoke images from the classic western films of gun slingers, card games, saloons, etc. PCGS Price Guide...\$15,000

9019	1892 \$20 Liberty -- NGC AU50	\$9,750	Scarce in all grades. A paltry mintage of only 4,430 double eagles at the Philadelphia Mint in 1892 accounts for the scarcity of this issue in all grades. NGC Price Guide...\$11,500.

9135	MCMVII (1907) \$20 Saint High Relief, Wire Rim -- PCGS MS63	\$30,000	Housed in an older PCGS Powder Blue Label. This handsome piece displays warm honey-olive color, with blushes of pale pinkish-rose iridescence on both sides. The strike is sharp and has expertly imparted the bold high relief detail that makes this issue so desirable among advanced collectors. Quite attractive for the assigned grade with a pleasing softly frosted texture. PCGS Price Guide...\$28,500. Check out this historical record for a PCGS Coin in 2007...\$97,750.
9147	1908 \$20 Saint Gaudens With Motto -- PCGS MS65	\$15,200	Only 17 finer. Housed in an early PCGS powder blue holder. The present coin displays vibrant, satiny mint luster with deep, original orange-gold patina. Clean fields and a bold strike add to the eye appeal. The 1908 With Motto double eagle marked the reinstatement of the motto IN GOD WE TRUST to the design of the United States' largest gold denomination after it had been omitted by Augustus Saint-Gaudens and President Roosevelt during the design process for the coin in 1907. While the motto -- born out of the emotional impact of the Civil War -- had been in use on many denominations since 1864, there had never been a legislative mandate for it. In 1908, Congress initiated one, and the design of the double eagle was immediately updated to include the motto on the reverse along the sun's crest. PCGS Price Guide...\$18,000.

9147	1908 \$20 Saint Gaudens With Motto -- NGC MS65	\$13,750	Only 17 finer at PCGS. Low-Mintage Issue, Conditionally Scarce. A sharp, satiny example of this first-year With Motto date, showing excellent eye appeal for the grade.
9151	1909/8 \$20 Saint Gaudens -- PCGS MS63	\$5,500	The 1909/8 Saint-Gaudens double eagle is plentiful overall, but the issue can be elusive in grades finer than MS63. As the only overdate of the series, this coin is in high demand in all grades and is essential for a complete Guide Book collection. PCGS Price Guide...\$8000
9154	1910 \$20 Saint Gaudens -- PCGS MS65	\$9,500	A beautiful sun-gold Gem with booming luster, a bold strike.
9157	1911 \$20 Saint Gaudens -- NGC MS65	\$16,700	This is an exceptionally attractive Gem 1911 twenty. The surfaces are so clean, so lustrous, so sharply struck, it makes one wonder: How nice does a coin have to be to grade MS66?
9159	1911-S Saint Gaudens -- NGC MS66	\$13,750	None finer at NGC. Only one finer at PCGS. Billowy mint frost mingles with warm golden-apricot color on both sides of this sharply struck, expertly preserved example. NGC Price Guide...\$20,000. 9176	1923-D \$20 Saint Gaudens -- PCGS MS67	\$15,750	None finer at PCGS and only one finer at NGC. Exceptional Denver Mint Type Coin. The 1923-D Saint-Gaudens double eagle claims a substantial mintage of more than 1.7 million pieces. Mint delivery records are incomplete, but it is believed that there were about 36 deliveries, spaced throughout the year. Many coins were used to settle large accounts in foreign trade and large numbers of relatively high-quality examples have been repatriated from Latin American holdings in recent times. The 1923-D is the only really available branch mint issue of the 1920s in high grade, making it a popular choice with type collectors. This spectacular Superb Gem exhibits sharply detailed design elements and virtually flawless orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. PCGS Price Guide...\$18,500.
9177	1924 \$20 Saint Gaudens -- NGC MS67	\$12,000	Only 3 finer at NGC. Medium yellow-gold color and swirling mint frost characterize each side. The fields are clean and razor-sharp detail appears on Liberty's face and torch hand. NGC Price Guide...\$15,000.
9181	1925-D \$20 Saint Gaudens -- PCGS MS63	\$12,900	PQ. Deep Original Coloration. Housed in an Old PCGS Powder Blue Label. The gold melts during the 1930s destroyed most of the 1925-D double eagle's production of more than 2.9 million coins, making the date scarce in high grade. This piece displays deep red-gold patina over satiny luster. PCGS Price Guide...\$11,500. In MS66...\$33,500.
PCGS # Classic Silver Commemoratives		Price	Description
9296	1892 Columbian Half Dollar -- NGC MS67	\$2,950	Nicely toned.
9222	1900 Lafayette Dollar --- PCGS MS64 CAC	\$2,500	Richly toned. A popular issue for not only its beauty but as the first and only silver dollar in the entire classic commemorative era. It was also the first coin to feature a U.S. president, George Washington. PCGS Price Guide (Non-CAC)...\$2600. In MS65...\$6000.
9222	1900 Lafayette Dollar -- NGC MS65	\$4,950	The Lafayette dollar is popular as the only silver dollar in the classic commemorative series. This Gem example displays satiny luster and a bold strike, with mottled olive-gold, amber, and russet toning over each side. Finer pieces are scarce. NGC Price Guide...\$6,150.
9222	1900 Lafayette Dollar -- NGC MS67	\$49,500	Pop 10. None Finer. Each side of this piece possesses warm, radiant luster. On the obverse, amber-russet toning with a touch of red covers much of the periphery, while the center is predominantly silver-gray with small, scattered flecks of golden-tan. The reverse rims have similar wheat patina, though the interior is mostly blue-green with a zone of rose-tinged gray above the horse. A simply exquisite piece that is sure to appeal to the commemorative connoisseur. Great price guide comp, too! NGC Price Guide...\$80,000. CDN Collectors Price Guide...\$60,000
9224	1921 Alabama Half Dollar-- NGC MS66	\$1,400	Light attractive tones. NGC Price Guide...\$2300
9305	1936 Gettysburg Half Dollar -- PCGS MS67	\$1,750	Light attractive tones. Only 6 finer at PCGS. Price Guide...\$1800.
9305	1936 Gettysburg Half Dollar -- PCGS MS67+	\$3,500	Only 6 finer at PCGS. Very lightly toned. PCGS Price Guide in 67 plus...\$5,500. In 68...\$25,500.
9312	1935 Hudson Half Dollar -- NGC MS67	\$4,900	None Finer at either service. One of the scarcer and more conditionally challenging classic commemorative silver issues, just 10,000 1935 Hudson Sesquicentennial coins were struck for distribution, plus an additional eight pieces for Assay purposes. Most survivors grade no finer than MS-64, and the present example is especially nice. A find for the discerning specialist. Great Value when comparing to the NGC Price Guide...\$8,950.

11420	1839 Half Dollar In Bronze, J-98 Restrike -- PCGS PR65BN	\$26,800	Pop 2. None Finer. Mintage unknown. Ex: Bass-Simpson. This piece is a spectacular Gem, with razor-sharp definition on all design elements. The well-preserved surfaces are attractively toned in vivid shades of green, orange, and amber, with moderately reflective fields underneath. Overall eye appeal is outstanding. ON THE OBERSE: Liberty wears a coronet inscribed LIBERTY with her hair tied at the back of her head. The backward or right facing Liberty head design is similar to the one appearing on the 1839 half eagles and eagles. The date, 1839, appears below the bust with 13 stars equally spaced along the border. ON THE REVERSE: is the regular issue No Motto half dollar design with Large Letters as used from 1842 to 1853 and from 1856 to 1866. Struck in bronze with a reeded edge.
11721	1855 Large Cent, J-168 Original - PCGS PR64RB	\$5,500	Ex. Garrett. Thirteen stars surround an eagle flying slightly upward, similar to that seen on the Gobrecht dollar reverse. The reverse is based upon the then-current large cent, but the wreath is diminished in scale. PCGS Price Guide...\$6000

12020	1859 Gold Dollar, J-256 -- PCGS PR64BN	\$6,750	Pop 3 with none finer. Ex: Simpson. The obverse is similar to that used on the regular issue 1859 gold dollar, but the letters are slightly taller. The reverse is also similar to the regular issue, but the letters in DOLLAR are taller. Struck in copper with a reeded edge.
60820	1868 Three Cent Nickel, J-618-- NGC PF65 CA	\$1,800	Only one finer. Obv: A bust of Liberty faces left, the portrait very similar to that used on regular-issue nickel three-cent pieces. The legend UNITED STATES OF AMERICA is around the border and the date 1868 is below. Rev: Also similar to the regular-issue nickel three-cent pieces with a Roman numeral III set within a laurel wreath. The obverse and reverse are fully brilliant. The strike is bold throughout and the designs are well executed.
60981	1869 50C, J-752 -- NGC PF67 Cameo	\$7,500	Mintage unknown. Single Finest Known. Examples of this popular type were originally distributed as part of pattern Proof sets. Aluminum strikings such as this are highly elusive in today's market.
10549	1872 Octagonal Gold 25C, Washington Head -- NGC MS65	\$1,750	Only 8 finer at NGC. Satiny in texture with sharp striking detail and abundant visual appeal.
511836	(1999) '1759' Martha Washington Dollar, J-2185 -- NGC MS66	\$3,950	Mintage Unknown. The Martha Washington design, previously used to test clad coinage circa 1965, was revived in 1999 to test "golden" alloys for the pending Sacagawea dollar. Struck in manganese-brass-coated copper-clad metal with a plain edge. In a Mike Castle signature holder. Lustrous and sharply struck. No Price Guide Information.

9999	1814 Great Britain BHM-844 Silver Indian Peace Medal -- NGC UNC Details	\$13,900	Ex. John J. Ford, Jr. 1814 George III Indian Peace Medal. Silver. First Size. Adams-12.1. 75.5 mm. 1871.1 grains. Lovely medium gray silver with soft blue-green, rose and gold toning on both sides that adds considerably to the visual appeal. Clearly an issued medal, but one that saw very little actual wear. This was the largest of the 1814-dated medals produced for award to Native Americans in the later days of the War of 1812. The British relied heavily upon Native Americans in their war effort. Distribution of medals as markers of allegiance was rampant, so much so (as related by Adams), a Captain Bulger, Commander at Green Bay, wrote in 1815 that ", formerly a chief would have parted with his life rather than his medal. Missing the original suspension hanger, leaving behind the piercing at 12 o'clock that is on all issued medals, so the "holed" designation from NGC really does not make sense as a grading qualifier on this, or any medal like it. This is exactly how they were issued (with a hanger), and this is a particularly attractive example.
