PCGS #	Colonials, Tokens & Medals	Price	Description
13	(1652) New England Shilling -- NGC AU58	\$295,000	Pop 2 with one finer. Mintage unknown. Ex. Kreisberg (69.4 gr.). You just don't see Shillings this nice. This fully original piece is well-centered and the sharpest strike that we have ever seen. The planchet is perfectly round, incredibly smooth and well detailed. In our opinion -- this piece could've graded mint state. -- Last record shows this piece trading hands back in 1978. MORE ABOUT NE SHILLINGS: The New England coinage is of unparalleled importance as the foundational coinage of what is now the United States. The NE shillings had the origin and denomination stamps punched by hand on round blanks. The silver used for the coin production was obtained locally and the pieces would be melted, assayed, refined, and then cast into strips by mint master John Hull in order to produce coins for the owner of the silver. The initial NE coinage was produced for only a short period. NGC Price Guide...\$375,000.
58	Undated (ca. 1694) London Elephant Token - PCGS MS63BN	\$14,500	Pop 3 with 4 finer. Another superb example of the scarcer thin planchet format, one both more elusive and usually better struck than the thick planchet. This is on a virgin flan, with bright golden luster barely faded from mint color on the obverse and a mottling of gold, light brown, and violet blue on the reverse. Crisply struck, well centered on the obverse, trivially aligned to the right on the reverse virtually a problem free. A very high grade, nice looking example of the type. PCGS Price Guide...\$22,500.
63	(1789) Mott Token - Thick Planchet, Plain Edge -- NGC MS63 BN	\$1,150	Pop 8 with 11 Finer. Breen-1022. An uncommonly well preserved example of this intriguing early American token with glossy mahogany-brown surfaces that retain traces of mint frost. Late state of the dies with a large die break at the top left corner of the clock and spalling in the fields and peripheries of both sides. The exact origins of these tokens remain a mystery, but it is likely they were made at least a few decades after the 1789 date they bear and the die work appears to match that of some other tokens produced by Robert Lovett, Sr. in the 1830s. This is a choice and appealing example. No price guide information available.
246	1773 Virginia "Penny" -- PCGS PR64 BN	\$25,000	Mintage Unknown. Pop 3 with only 7 Finer. A lovely and impressive example of this classic colonial rarity. Both sides possess a rich and evenly distributed chestnut-brown patina, with flashy silvery-blue iridescence as well as a few hints of mint red. Crisply impressed from the dies and well centered on the planchet; one will be challenged to locate a singularly bothersome area of striking incompleteness, with the legends and devices standing in pinpoint definition. All told, simply a beautiful and high-end representative of this celebrated type. Struck on highly prepared planchets from a unique set of dies, the Virginia "penny" coins were never intended for commerce. While a few are known with evidence of circulation, most are fairly nice, well-preserved in the upper class 18th century English collections for which they were intended. As the most impressive form of the only truly "colonial" coin in the United States, the Virginia penny is a classic rarity, avidly sought in every state of preservation. Fewer than 30 examples are thought to exist. PCGS Price Guide...\$25,000.
427	1787 New York Excelsior Copper, Eagle on Globe Left, Silvered -- NGC XF45	\$27,500	Single finest known at NGC. Mintage unknown. This impressive piece, which has smooth medium brown surfaces with olive-gray color where silvering remains is listed on page 64 of the 2024 Guide Book. One of the more famous and popular New York issues is the Excelsior Copper with the arms of New York on the obverse and a heraldic eagle on the reverse. On the front of the coin a smaller eagle is perched atop a small globe. On one variety, the eagle's head is turned right; on this one, the head is turned left. The two varieties appear to be of similar rarity.
731	1742-P Sou Marque, Dijon Mint -- PCGS XF45	\$275	Speckled steel and blue-gray toning to both sides, the reverse also with traces of iridescent reddish-gold.
731	1740-Q Sou Marque. Perpignan Mint. -- PCGS MS62	\$2,200	Sharply struck with full silvering and a bright frosty to semi-reflective finish - a rare set of attributes in a sou marque from the challenging Perpignan Mint.
731	1739-R Sou Marque, Orleans Mint -- PCGS AU55	\$1,750	A really exemplary example of this extremely rare punctuation variant, with a stop after the R mintmark on the obverse. The piece is a nice pale silver-gray in color, the hue nearly uniform across both surfaces.
731	1741/39-R Sou Marque, Orleans Mint -- PCGS XF45	\$290	Mottled steel and dove-gray patina with a few swirls of deeper charcoal in and around the central obverse.
731	1741/0/39-R Sou Marque, Orleans Mint -- PCGS AU58	\$725	Medium silver-gray with blended gold and pale rose toning on both sides.
731	1741/0/39-R Sou Marque, Orleans Mint -- PCGS MS61	\$950	A very sharply struck specimen with the clearest star/battleaxe over punching and a very bold overdate. The piece is a nice warm rose-gray in color.
731	1738-S Sou Marque, Reims Mint -- PCGS AU50	\$475	With nearly intact silvering to warmly toned, light rose and pewter-gray surfaces.
731	1740-S Sou Marque, Reims Mint -- PCGS AU Details	\$450	This is the final year of issue of the denomination from the Reims Mint. This specimen is pale gray in the fields, slightly darker on the higher points
731	1739-T Sou Marque, Nantes Mint -- PCGS XF45	\$250	Richly toned in copper-gray and steel-olive patina with traces of silvering that are clearest in the center of the obverse.

731	1738-V Sou Marque, Troyes Mint -- PCGS AU55	\$450	An attractive piece with full silvering, a generally bold strike, and appreciable mint frost.
731	1739-V Sou Marque, Troyes Mint -- PCGS MS63	\$3,300	Nice pale gold and gray in color on both sides. an impressively smooth appearance for surfaces that exhibit full silvering and strong luster.
795	1776 EG FECIT Continental Dollar, Pewter, CURRENCY -- PCGS MS62 CAC	\$99,000	Pop 3 with 7 finer at CAC. Although the origins of the Continental dollar remain uncertain, they have long been ardently collected. This Newman 3-D variety is scarcer than Newman 1-C and Newman 2-C. This satiny and evenly struck representative has an untuned obverse. And the eye appeal is undeniable. The Continental "dollar" is an enigmatic type for which no specific documentation detailing its origin has ever been found. Numismatic scholars have been able to piece together a story that, up until recently, had become the generally accepted version of events. According to this story, resolutions passed by the Continental Congress on February 17, 1776, and May 9 of the same year provided for the issuance of paper money in various denominations, including a \$1 note. Resolutions passed later in the year on July 22 and November 2, however, omitted the \$1 note. Based on these facts and supported by the existence of these coins, it was theorized that the Continental Congress intended these pieces to serve in lieu of the \$1 note beginning in the latter half of 1776. PCGS Price Guide in MS62 (Non-CAC)...\$85,000. In MS63...\$125,000.

1000	1793 Half Cent -- PCGS AU50	\$33,000	The 1793 half cent is an essential one-year type coin, and a classic design. Examples are very elusive in high grades. This is a well-detailed coin that is glossy with luster remaining beneath the deep brown patina. PCGS Price Guide...\$35,000.
1574	1814 Crosslet Large Cent -- NGC MS64 BN	\$13,500	Pop 4 with 1 finer at NGC. This beautiful Choice example will appeal to high quality type collectors and advanced early copper specialists alike. Smooth and glossy, the surfaces exhibit warm medium copper patina on the obverse with much of the same on the reverse. NGC Price Guide...\$22,000
PCGS #	Three Cent Pieces	Price	Description
3719	1869/8 Three Cent Silver - PCGS PR66 CAC	\$7,500	One Numerically Finer. This enchanting specimen is drenched in vivid, blended patina of cobalt blue, deep rose, charcoal-olive and reddish-gold. Well-mirrored in finish with full striking detail and silky smooth surfaces. Terrific overdate specimen. PCGS Price Guide in PR66 Non-CAC...\$10,000.
3747	1879 Three Cent Nickel -- NGC MS67+	\$2,750	...
93765	1869 Three-Cent Nickel -- PCGS PR66DCAM	\$2,500	This is an exquisite upper end Gem with watery fields supporting frosty design elements. Sharply struck, as befits the method of manufacture, with only the lightest champagne iridescence denying full brilliance. Exceptional quality in a survivor from a Proof mintage that is likely on the order of 850 to 1,100 pieces. PCGS Price Guide...
3768	1872 Three Cent Nickel -- NGC PF67	\$3,300	...
3769	1873 Closed 3 Three Cent Nickel -- NGC PF67	\$3,500	Pop 5 at NGC. None Finer. A pleasing pastel-toned Superb Gem proof, showing powder-blue and champagne hues across reflective fields and satiny devices. The strike is sharp throughout, and no mentionable marks are seen. The 1873 proof is only known with the Closed 3 date variant. Examples are rare in Superb Gem condition. NGC Price Guide...\$4850
83770	1874 Three Cent Nickel -- NGC PF67 Cameo	\$3,300	No Finer Pieces Certified. Lustrous light gray devices and lightly mirrored fields characterize this brilliant and untuned Superb Gem Cameo proof. NGC Price Guide for a common date...\$4250.
3772	1876 Three Cent Nickel -- NGC PF66 Ultra Cameo	\$2,950	Pop 8 with only 3 finer. NGC Price Guide...\$3000.
3775	1879 Three Cent Nickel -- PCGS PR67 CAC	\$1,000	...
3775	1879 Three Cent Nickel -- NGC PF68 Cameo	\$3,900	...
PCGS #	Nickels (All Varieties)	Price	Description
3825	1871 Shield Nickel -- NGC PF67	\$3,950	Pop 5. None Finer. A virtually pristine condition rarity that will appeal to quality conscious specimen type and date collectors. Lightly toned in iridescent champagne-gold, more so on the obverse than reverse. Both sides are fully struck with a highly reflective finish. Exquisite! NGC Price Guide...\$4,500.
3927	1915 Buffalo Nickel -- NGC MS67 Plus	\$3,300	Pop 11 with one finer. A golden-tinged example with razor sharp devices and smooth satin luster. Ideal for inclusion in a top-flight type set or advanced Buffalo nickel collection. NGC Price Guide...\$5,000.
3932	1916-D Buffalo Nickel -- NGC MS67	\$19,500	Pop 2 None Finer at either service. This is a magnificent Superb Premium Gem coin. Although the mintage of 13,333,000 coins for the 1916-D may seem adequate, we all know today that very few were saved at the time of issue, high end Mint State survivors such as this are extremely rare. An important coin that has everything a collector could desire - technical grade and strong eye appeal. No Price Guide information at NGC. PCGS price Guide...\$45,000.
3940	1918-S Buffalo Nickel -- PCGS MS64	\$2,450	A satiny mostly gray specimen with strong luster, and with great eye appeal that readily measures up to the requirements of the grade. Nicely struck for the date. PCGS Price Guide...\$5100.
3968	1929-S Buffalo Nickel -- NGC MS67	\$9,500	Pop 12 with None Finer at NGC.--†Exceptionally smooth satin surfaces border on pristine. Sharply struck and further enhanced with wisps of attractive toning -- it's difficult to imagine a more desirable example of this issue. NGC Price Guide...\$10,000. CDN Greysheet...\$9,500. CDN Retail Price Guide...\$11,900
PCGS #	Half Dimes (All Varieties)	Price	Description

4285	1835 Half Dime Small Date, Small 5C -- NGC MS65	\$2,250	Small Date, Small 5 C. Sharply struck with satiny fields and impeccably preserved surfaces. Lightly toned with gary-lavendar blending in with bright underlying surfaces. Conditionally scarce for this otherwise obtainable die marriage, this Gem Capped Bust half dime is particularly well suited for inclusion in a high grade type set. NGC Price Guide...\$3500.
4356	1853 Seated Half Dime With Arrows -- PCGS MS67	\$6,950	Pop 11 with 6 finer. A richly original Superb Gem with particularly dramatic reverse toning in mottled copper-red, steely-charcoal and deep olive colors. The brighter reverse is brilliant in the centers with splashes of similar colors around the periphery. Both sides are sharply struck with a full endowment of smooth, billowy mint luster. PCGS Price Guide...\$9000
4381	1862 Seated Half Dime -- PCGS MS68	\$8,750	Pop 7 with none numerically finer. An Absolute rarity. This captivating Superb Gem exhibits semi-proof like reflectivity in the fields that forms a splendid backdrop to smartly impressed, frosty-textured design elements. Both sides are predominantly brilliant, although we do note pretty peripheral highlights in iridescent golden-apricot that are about equal in intensity on each side. PCGS Price Guide...\$10,000.
PCGS #	Dimes (All Varieties)	Price	Description
4511	1829 Capped Bust Dime -- NGC MS66	\$9,000	Only 10 Finer among all varieties. JR-6. Small 10 C. According to NGC Census data, this is the finest known example of the JR-6 Variety. This is a visually impressive 1829 dime exhibiting rich and colorful patina that truly dazzles beneath a light. Each side displays tangerine and magenta hues at center which cool to teal, gold, and olive at the rims. This dime is sharply struck and original, without any blemishes of note under inspection. NGC Price Guide All Varieties...\$9500.
4520	1831 Bust Dime, JR-1 -- NGC MS67	\$26,500	Finest known of the JR-1 Variety. Only one finer known among all the varieties which is certified by NGC in 68. Potent luster dominates this gorgeous Superb Gem Capped Bust dime. The strike is unimprovable. Attractive toning throughout. NGC Price Guide...\$47,500
4609	1856 Seated Dime, Small Date -- NGC MS66+	\$4,950	Pop 1 with one finer at NGC. Exceptional surface preservation for the more frequently encountered date logotype of the circulation strike 1856 dime. Smooth and satiny, both sides are brilliant apart from the lightest pale silver and champagne-gold tinting. Fully struck with eye appeal to spare, even the finest collection of Liberty Seated coinage would benefit from inclusion of this premium quality Gem. NGC Price Guide...\$5,625.
4631	1860 Seated Dime -- NGC MS67	\$3,600	Pop 3. None Finer at NGC. Nice White Coin. NGC Price Guide...\$7,000
4651	1870 Liberty Seated Dime -- NGC MS66	\$5,950	Pop 4 with none finer. Satiny on both sides, with a light coating of pastel gray-golden toning. The strike is sharp overall including Liberty's hair and the leaves on the wreath on the reverse. Outstanding surface quality with no mentionable distractions seen even when studied with a loupe. One of the four MS-66 coins certified by NGC of this more difficult date, with none finer. With a mintage of 470,500 pieces for the year, dismal survival rates ensued and finding more than a handful may require decades. Gems like this are caviar for the specialist. NGC Price Guide...\$7500.
4668	1874 Arrows Seated Liberty Dime -- NGC MS66	\$2,300	Only 8 finer. NGC Price Guide...\$4650.
4688	1880 Liberty Seated Dime -- NGC MS68	\$9,750	Pop 5 with none finer. Splendid ocean-blue, red, and gold toning embrace this lustrous and immaculate Seated dime. The deepest shades of color are located near the rims. Likely due to large-scale silver dollar production, the business strike mintage of the 1880 dime was only 36,000 pieces. Apparently, Philadelphia dealers at the time were aware of the issue's scarcity, and set aside examples in Mint State. Nonetheless, the date is rarely encountered in the present quality. NGC Price
4698	1887 Liberty Seated Dime -- PCGS MS67	\$2,250	Pop 6 with none finer at PCGS. Subtle powder blue peripheral highlights enliven otherwise champagne-apricot surfaces. This is a beautiful Superb Gem, carefully preserved and otherwise expertly produced. PCGS Price Guide...\$3500.
4820	1899-S Barber Dime -- PCGS MS65	\$2,150	PCGS Pop 12. A splendid specimen, an absolute Gem example of the San Francisco Barber dime from 1899. Sunset-golden toning is mixed with russet-charcoal on the obverse, while on the reverse, we see a mixture of olive-green, antique-gold and dove-gray. Details are well struck. Seeing this coin will make you want to start collecting Barber dimes! CDN Collectors Price Guide...\$2380.
4809	1896 Barber Dime -- NGC MS67	\$3,750	...
4882	1898 Barber Dime -- PCGS PR67	\$1,900	Mintage...735. Only one finer at PCGS. Strongly reflective through deep and luminous patina, blue, violet, lavender, and gold-green. Boldly struck and fantastic eye appeal. PCGS Price Guide...\$3,500.
PCGS #	Twenty Cent Pieces	Price	Description
5304	1876 Twenty Cent Piece -- NGC PF66	\$10,750	Mintage 1,260. Pop 9 with 5 finer. This delightful Premium Gem exhibits sharply detailed design elements and reflective fields, under attractive shades of sea-green, magenta, and cerulean-blue toning. NGC Price Guide...\$15,250.
PCGS #	Quarters (All Varieties)	Price	Description
5432	1854 Arrows Seated Liberty Quarter -- NGC MS66	\$12,500	Pop 4 with 3 numerically finer. 1854 Gems are scarce, and finer pieces are rarely offered. This Premium Gem coin exhibits well-detailed design elements and vibrant mint luster, with mingled gold, green-gray, and amber patina. Did you know? In 1853, the weight of the quarter dollar was reduced from 6.68 gm to 6.22 gm, and the reduction was noted on the coins by the addition of arrows on each side of the date and a burst of rays in the reverse fields around the eagle. The rays were removed for 1854 coinage, but the arrows remained at the date until 1856. NGC Price Guide in MS66...\$22,500.

5473	1868-S Seated Quarter - PCGS MS65	\$12,500	Pop 1 with 3 finer. This piece displays satiny, unabraded surfaces and sharply struck design elements. Lovely rose-gold and mint-green hues adorn each side, adding to the eye appeal. Hints of lilac also appear in portions of the margins. . The San Francisco Mint struck only 96,000 Seated Liberty quarters in 1868, most of which went directly into circulation in the West, where silver coinage still circulated in the immediate aftermath of the Civil War. Mint State survivors are rare today in all grades, and only a handful of pieces are known in Gem or better condition. PCGS Price Guide...\$17,500.
5510	1878-S Seated Liberty Quarter -- NGC MS65	\$10,500	Pop 5 with none numerically finer. This Gem example is sharply struck and crisply defined with lustrous, bluish-gray surfaces and attractive olive overtones. There are no mentionable marks or abrasions to be seen on the smooth and appealing fields or devices. A diagnostic die line within the dentils above and to the left of star 8 helps identify authentic examples of this late-series, low-mintage San Francisco issue. The 1878-S is scarce to the point that deceptive counterfeits exist, although the present coin clearly confirms as authentic by NGC and by die characteristics. NGC Price Guide...\$15,500.
5517	1885 Seated Liberty Quarter -- PCGS MS66 CAC	\$3,300	Pop 18 with 5 numerically finer. Undesignated contrast. This sharp, proof like Premium Gem 1885 quarter displays noticeable cameo contrast on the obverse, while the reverse is more deeply toned in lavender and aquamarine hues. There are no mentionable abrasions. Proof like circulation strikes of this period are not unusual given the low mintages. The 1885 had a production total of just 13,600 pieces. PCGS Price Guide...\$3500.
5575	1874 Arrows Seated Liberty Quarter -- NGC PF66	\$7,250	Only 6 finer. Essential Two-Year Type. This Premium Gem proof is one of 700 pieces struck in this year. Luminous surfaces are blanketed in iridescent cobalt-blue, orange-gold, and lavender toning, and offer a cameo-like effect when the coin is tilted beneath a light. The design elements are fully brought up, and both sides are devoid of significant marks. NGC Price Guide...\$9250.
5575	1874 Arrows Seated Liberty Quarter -- NGC PF67	\$13,500	Pop 5 with 1 finer at NGC. The small arrow heads left and right of the date signified a minuscule weight change that occurred in 1873, with that design feature continuing in production the following year. At the time these coins were minted, dies were standardized with little variance from one to the next. However, the arrow heads were still hand-punched in the die, and can be used to identify different varieties. On this example, both appear to slant upward, following the curve of the border. A highly attractive Superb Gem, this lovely proof has obvious contrast and Both sides are fully mirrored with splashes of peripheral gold and iridescent toning on the obverse. NGC Price Guide...\$23,000.
5605	1893-O Barber Quarter -- PCGS MS66	\$2,650	Pop 13 with only 4 finer at PCGS. The New Orleans Mint struck a large mintage of nearly 3.4 million Barber quarters in 1893, the second year of the design. Few survivors can match the quality and eye appeal of the present coin, however. This spectacular Premium Gem exhibits well-preserved lustrous surfaces, under attractive shades of greenish-gold and lavender-gray toning. The well-detailed design elements, too! PCGS Price Guide...\$3000.
5612	1895-S Barber Quarter --- NGC MS64	\$1,390	Blast White. A brilliant and sharply struck example with bountiful mint luster. It is a significant condition rarity, underappreciated in all Mint State grades, especially those at or near the Gem level. A significant find for astute collectors of Barber coinage. NGC Price Guide...\$2300. CDN Grey Sheet Bid...\$1400.
5715	1917 Type Two Standing Liberty Quarter -- PCGS MS67 FH	7900	Among the finest know. Only one numerically finer in MS68. The borders on this piece display dollops of fire-red, jade-green, and lemon-gold patina. The lustrous fields and devices are cream-gray. The strike is good, and neither side shows any remotely consequential contact. This first-year Type Two issue is occasionally available in MS66 Full Head, but higher-graded pieces are scarce. PCGS Price Guide...\$12,500
5730	1919-D Standing Liberty Quarter -- NGC MS66	\$6,250	Only one finer at NGC. This Gem 1919-D quarter offers lightly toned surfaces, still bright and radiant, with intense satiny mint frost and immaculate preservation on both sides. This example is one of the finest-graded at NGC among those without Full Head status. NGC Price Guide...\$7600.
PCGS #	Half Dollars (All Varieties)	Price	Description
6176	1837 Capped Bust Half Dollar -- NGC MS64	\$5,200	Lustrous, Choice for the Variety. Die cracks through the final stars, and clash marks in the field, combine to attribute the die marriage. The strike is sharp and you will find lustrous surfaces that are lightly toned and impressively devoid of contact. The reverse dentils remain strong. NGC Price Guide...\$5,750
6176	1837 Capped Bust Half Dollar, Reeded Edge -- NGC MS-65	\$12,500	Brief 50 CENTS Reverse Design Type. Both sides are dusted with pretty iridescent toning in vivid champagne-pink and golden-apricot. The strike is razor sharp to full. This coin and other high grade 1837 half dollars may owe their exceptional preservation to the Panic of 1837, which settled over the United States after New York City banks suspended specie payments on May 10, 1837. Bank customers could no longer exchange paper at par for specie, leaving paper money and copper coinage to carry the work of day-to-day business in most areas of the country. Millions of half dollars sat in bank vaults, despite the 1837 establishment of a bullion fund by Act of Congress that allowed the U.S. Mint to produce silver coins without waiting for deposits of bullion. By the time the panic subsided, allowing silver coins to reenter circulation, few Gems were left among the bank stockpiles. Today, more than 90% of Mint State 1837 halves certified by PCGS and NGC grade MS-64 or lower. For the quality-conscious type collector, this offering represents a fleeting bidding opportunity. NGC Price Guide...\$17,850.

6243	1843 Seated Liberty Half Dollar -- NGC MS65	\$6,500	Pop 4 with only one finer among all varieties. The 1843 half eagle dollar is rare at the Gem level regardless of variety. This variety represents the only use of this shattered reverse die, which shows a network of heavy die cracks that is reminiscent of a spider's web. The obverse die is also cracked around the periphery. This coin is featured on the cover of the reference book -- A Register of Liberty Seated Half Dollar Varieties, Volume V. The present coin displays luminous, frosty mint luster and delicate champagne tinting. The strike is sharp, and each side showcases outstanding preservation. NGC Price
6268	1852 Seated Liberty Half Dollar -- NGC MS66+	\$13,000	Only 2 numerically finer. Both in MS67. This remarkable GEM is the second FINEST graded example for this lower mintage date. Only 77,130 were struck for commerce and precious few were saved at the time of issue. There are just two graded higher at NGC, and there is nothing finer than MS66 at PCGS. Distinctive splashes of gold on the obverse will serve to identify this GEM beauty. Sharply struck, the details exquisitely executed and enlivened by bold satiny brilliance. The eye appeal is excellent in every way. NGC Price Guide in MS66...\$17,500. In MS67...\$30,000. Greysheet...\$12,500.
6435	1874 Arrows Seated Half Dollar -- NGC PF65	\$8,500	Only nine finer. A beautiful Arrows type coin in proof format. Exquisite toning that flows to gorgeous silvery centers on both sides of the coin. NGC Price Guide...\$10,500.
6442	1881 Liberty Seated Half Dollar - Type 1 reverse -- PCGS PR65	\$2,250	Mintage...975. An originally and moderately toned specimen with iridescent multicolored undertones. Here is a gorgeous Gem quality coin, one of 975 Proofs struck for the date. PCGS Price Guide...\$3700.
6476	1896-S Barber Half Dollar -- PCGS MS64	\$3,250	Like the 1896-S Barber quarter, this half dollar issue is a better date in the series. Examples are scarce but obtainable in near-Gem condition. Soft mint luster radiates beneath shades of deep steel-gray patina. PCGS Price Guide...\$5000.
6481	1898-O Barber Half Dollar -- PCGS MS63	\$2,475	Richly Toned. PCGS Price Guide...\$2750.
6488	1900-S Barber Half Dollar -- PCGS MS64	\$3,200	The 1900-S is a scarcer date in the Barber half dollar series, seldom offered in any Mint State grade. This Choice example represents one of the more often seen grades, although it is still rare this fine, and higher-grade pieces are few and far between. Satiny luster complements a bold strike. Dusky steel-gray, olive, and gold toning attests to the originality of the surfaces. PCGS Price Guide...\$4000
6489	1901 Barber Half Dollar -- PCGS MS65	2250	Pop 15 with only 8 finer at PCGS. Medium rich tones. CDN Collectors Price Guide...\$2380
6497	1903-S Barber Half dollar -- PCGS MS66	\$7,900	Pop 5 with 3 finer at PCGS. Soft, satiny luster adorns the exceptionally well-preserved surfaces of this Premium Gem. The 1903-S Barber half dollar is rare in this grade, and only a few higher-grade pieces are known. Worthy of Registry Set inclusion. PCGS Price Guide...\$8500.
9999	1906-D Barber Half Dollar -- NGC VF35	\$140	
6515	1908-S Barber Half -- NGC MS65	\$3,600	An exemplary Gem example of a popular branch mint issue. Both sides are lightly toned in dusky pearl-gray and champagne-apricot hues. Its true scarcity is overlooked. The 1908-S, in fact, is a close second to the 1907-S in terms of Mint State rarity among late date Barber half dollars. Finer than normally seen, the present example will attract much attention in this and future market appearances. NGC Price Guide...\$4850.
6527	1913 Barber Half Dollar -- MS65 CAC	\$4,950	Pop 10 with Only One finer. Beautiful rose-gray patina blends with smooth, frosty luster. The surfaces are expertly preserved, as befits the assigned grade, and the strike is bold to sharp throughout. At the CAC-approved Gem level, this key date Philadelphia Mint issue is undeniable as a condition rarity. PCGS Price Guide in MS65 Non-CAC...\$5000. In
6583	1921 Walking Liberty Half Dollar -- PCGS MS64	\$12,500	A confidently struck near-Gem whose visual display is further enhanced by a dazzling array of mottled rose-gray patina. Although this issue normally comes well struck, this coin is sharper than most with nearly complete detail to Liberty's head and left hand. One of the key dates in the series, with Choice Uncirculated examples scarce from a market availability standpoint. PCGS Price Guide...\$13,500.
6587	1927-S Walking Liberty Half Dollar -- NGC MS65	\$7,250	Only 10 finer at PCGS. A premium well struck quality Gem, this lovely coin boasts fulsome mint frost and uncommonly smooth surfaces even for the MS-65 grade from PCGS. Both sides are richly original in preservation, as well, with mottled toning in copper-russet. PCGS Price Guide...\$11,250.
6613	1941-S Walking Liberty Half Dollar -- NGC MS67	\$14,500	None Finer at either service. Here is an overall brilliant and pearlescent beauty, with just subtle traces of champagne-gold iridescence. Softly frosted luster is seen throughout, the strike is sharp to full, and the surfaces are as pristine as would be expected for the assigned grade. Struck on the West Coast on the very cusp of World War II, the 1941-S is the undisputed key date issue in the popular Walking Liberty half dollar "short set" of 1941 to 1947. CDN Greysheet...\$32,000

6867	1798 Draped Bust Dollar, Small Eagle, 13 Stars -- NGC XF40	\$10,500	This NGC-certified example is vividly toned in a bold array of steel-blue, mauve and reddish-gold. The denticulation is full, and plenty of bold detail remains throughout the design. NGC Price Guide...\$12,750
40055	1799 Draped Bust Dollar, BB-164 -- NGC XF45	\$4,200	Pop 5 with 10 finer at NGC in this variety. BB Die State II. Boldly struck with pleasing definition seen in the eagle's breast feathers and shield, this lovely example displays deep slate to mauve patina throughout with some deeper argent tones on selected obverse high points. The surfaces are smooth and evenly worn without any distracting blemishes--a wholly satisfying specimen. At this die state, the crack through the TE of UNITED continues to the wing. A scarce issue to find any finer than seen here, with date, type and variety collectors all seeking an example. NGC Price Guide...\$8000.

6884	1799/8 Draped Bust Dollar, Small Eagle, BB-142, 13-Star Reverse -- NGC AU53	\$6,750	Pop 2 with 3 finer of the BB-142, B-1 variety at NGC. Mottled olive and silver-gray patina with underlying cobalt blue associated with the former color. The strike is well centered with plenty of bold AU detail. Traces of frosty mint luster persist on this handsome example. There is only one obverse die of the 1799-dated silver dollar issue that shows this overdate feature. NGC Price Guide...\$8600
11446	1839 Gobrecht Dollar, J-104 -- NGC PF64	\$55,000	Pop 14 with 10 finer. Mintage Unknown. This is a lovely Choice Proof example of the elusive 1839 Gobrecht dollar. A full strike with razor sharp definition to even the most intricate design elements of Liberty's portrait, the star centrils and the eagle's plumage. NGC Price Guide...\$95,000.
7002	1859 Seated Dollar -- PCGS PR66	\$22,500	Pop 4 with 2 finer at PCGS. Official Mint records indicate the production of 800 proof Silver Dollars in 1859, an over-ambitious figure since the majority remained unsold at the end of the year and were subsequently melted. Fewer than 250 specimens are believed to survive, including many impaired pieces. This beautifully toned representative is one of the lucky few that saw meticulous care from the beginning. The strike is needle sharp in all areas while lovely toning. PCGS Price Guide...\$38,500.
7039	1875-S Trade Dollar -- NGC MS65+	\$7,500	Only 4 numerically finer at NGC. Attractive colorful toning that's consistent on both the obverse and reverse. The satin-smooth surfaces of this exceptional example are lustrous throughout. The strike is sharp at all the stars and from head to toe throughout Liberty's portrait. NGC Price Guide in NGC MS65...\$10,000. In MS66...\$27,000.
7312	1878 7TF Morgan Dollar, Reverse of 78 -- NGC PF65	\$19,500	Fully struck with deep purple-violet and electric-green toning over both sides. The design elements are splendidly defined, with all of the precision expected for a proof, and the surfaces are exceptionally well preserved beneath the deep patina. NGC Price Guide...\$18,500
7086	1879-CC Morgan Dollar, GSA -- PCGS MS63+	\$11,500	
97191	1889-CC Morgan Dollar -- PCGS MS64DMPL CAC	\$250,000	None Finer. Pop 6 between both services with the well-deserving CAC designation. This piece is brilliant and starkly contrasted, showing cameo surfaces and liquid-like fields. Frosty white luster adorns the devices, which are sharply struck. A distinct lack of notable abrasions gives this piece eye appeal beyond its technical grade. A beautiful 1889 Carson City Morgan dollar. It is the scarcest Carson City issue in the series and is one of the two major key dates overall along with the 1893-S. The 1889-CC is also famously one of the few Carson City issues that was not represented in any significant quantity in the GSA sales of the 1970s. Most Mint State pieces that survive are believed to have come from certain small hoards or bags from decades ago. The 1889-CC reigns supreme as the key date in the set of 'CC' silver dollars. PCGS Price Guide in MS64DMPL (Non-CAC)...\$255,000.
7192	1889-O Morgan Dollar -- PCGS MS65	\$2,750	Attractive toning on the obverse with a blazing white reverse. PCGS Price Guide...\$3000.
7315	1880-O Morgan Dollar -- PCGS MS65 DMPL	\$95,000	Pop 1 none finer among Deep Mirror Proof like Coins. For Registry collectors, this remarkable cameo coin is the epitome of perfection. The level of field-device contrast borders on proof quality, and the sharp strike only adds to the appeal generated by the magnificent frost on the devices. The finest Deep Mirror Proof like coins typically available are graded MS64, with only a single Gem DMPL coin known -- that finest-known piece is particular coin. PCGS price Guide...\$70,000.
7324	1889 Morgan Dollar -- NGC PF68	\$27,500	POP 2 with none finer. Mintage...811. This is a lovely example with deeply mirrored fields around lightly frosted devices. Both side are deeply toned with a pleasing mix of gray and gold colors that are enhanced with multiple iridescent hues as the coin is turned under a light. As expected of the astoundingly high grade, there are no mentionable flaws or other surface distractions. NGC Price Guide...\$40,000
7200	1890-O Morgan Dollar -- NGC MS64	\$275	Light attractive tone around the rim.
7220	1893 Morgan Dollar -- NGC MS65	\$5,850	Only 6 numerically finer. Pleasing satiny luster. The surfaces are brilliant with very slight hints of reddish-golden iridescence, mostly on the reverse. Mint State examples are scarce with a median grade of MS-63 or thereabouts; Gems comprise just a tiny fraction of the NGC-certified population.
7225	1893-O Morgan Dollar -- PCGs MS65+ DMPL CAC	\$375,000	None Finer. Tied for finest known at PCGS. Well-deserving of the CAC designation. This remarkable Gem is exceptional for the issue. The finish is semiprooflike in sheen with richly frosted devices and hints of reflectivity in the fields. Each side remains wholly brilliant, and neither exhibits a single noteworthy abrasion. This is a coin that is earmarked for inclusion in the finest Morgan dollar collection. With the lowest mintage among all New Orleans branch mint Morgan dollars (300,000 pieces), the 1893-O is a popular coin and a series semikey.

7448	1905 Lewis & Clark G\$1 -- PCGS MS67	\$37,500	Pop 7. None Finer at PCGS. The 1905 Lewis and Clark gold dollar is rarer in high grade than its 1904 counterpart. PCGS and NGC combined list only 10 pieces in MS67 and finer condition. This example is among the finest in a PCGS holder. The strike is sharp, and luster is vibrant, illuminating largely untouched surfaces, save for a slight graze in field before Lewis' portrait. The eye appeal of this piece owes itself to the rich coloration, which includes vivid orange-gold interiors framed by mint-gold and sun-yellow margins. A recent sale was a PCGS CAC coin in April/May 2016, which realized \$39,950. PCGS Price Guide...\$45,000.

7451	1915-S \$50 Pan Pac Round -- NGC MS65+	\$177,500	Pop 9 with four finer at PCGS. This particular example in high-end Gem Uncirculated condition is characteristically lustrous and finely textured with luminous lemon-gold surfaces. Strike definition is strong throughout and there are virtually no small ticks or hairlines that are usually seen. Today, the legacy of the 1915 Panama-Pacific International Exposition lives on in the art and sculpture that captivated audiences over a century ago. Few of those works are as sought-after as sculptor Robert Aitken's fifty dollar gold pieces struck in both Round and Octagonal formats. Each features Minerva, the Roman goddess of Industry and Wisdom on the obverse and her owl on the reverse, perched upon a branch of Western Pine. Merely 483 examples of this type were actually distributed -- their issue price of \$100 being prohibitive as a souvenir for all but the most well-off attendees. NGC Price Guide in MS65...\$195,000. PCGS #	Gold Dollars	Price	Description
7531	1854 Gold Dollar, Type II -- PCGS MS65	\$24,500	Only 13 numerically finer at PCGS. Here is an elusive Gem example of the scarce Type II gold dollar, a visually stunning piece with a bold blend of light rose-gold color and billowy mint luster. Satiny in texture with remarkably smooth surfaces that are even largely free of the clash marks typically seen in examples of this type. A highly desirable specimen fit for the most sophisticated collector of U.S. gold type. DID YOU KNOW? The Philadelphia Mint was the only facility to produce the Type II gold dollar in 1854, striking 783,943 pieces of the new design along with 855,502 of the Type I dollars. Taken as a whole, the Type II design is by far the scarcest of the three basic types. Anywhere from 5,000 to 8,000 remain with maybe a quarter to a third in Mint State. The true rarity of the 1854 Type II gold dollars emerges at the Gem level, where only about 50 examples remain. PCGS Price Guide...\$30,000.
7532	1855 Type 2 Gold Dollar -- NGC MS65	\$24,500	Only 12 numerically finer at NGC. Superior Strike and Eye Appeal. This coveted and lovely Gem 1855 gold dollar offers superior technical quality and outstanding visual appeal for this conditionally challenging gold dollar type. Frosty surfaces are fully lustrous and display wisps of iridescent pinkish-rose to a base of warm golden-apricot color. Sharply struck overall. This coin has exceptional eye appeal. NGC Price Guide...\$32,500.
7637	1887 Gold Dollar, Centered Date -- PCGS PR67+	\$29,500	Pop 1. Here is a particularly desirable example of a rare classic U.S. Mint Proof gold issue. Thoroughly PQ, its originally preserved golden-rose surfaces also reveal delicate powder blue highlights as the surfaces rotate under a light. The finish is reflective in the fields, more frosty on the design elements, the latter with full detail from an expert strike. Smooth in hand with eye appeal to spare, even the most discerning collector will be impressed by this gorgeous upper end Superb Gem. PCGS Price Guide...\$32,500.
7638	1888 Gold Dollar -- NGC PF65+ Cameo	\$9,500	Pop 11 with 19 finer at NGC. This is one of 1,079 proof gold dollar struck in 1888, the year before the denomination was abolished. Probably fewer than 225 examples survive. Definition is expectedly razor-sharp and contrast is bold. Premium quality Gems such as this are in great demand from today's quality conscious numismatists. A beautiful specimen in all regards, this high end Gem is sure to please. NGC Price Guide...\$12,750.
PCGS #	\$2.5 Gold Quarter Eagles	Price	Description
7653	1805 Quarter Eagle -- NGC MS61	\$27,500	Pop. 10 with 4 Numerically Finer between both services. Rare in Mint State. Mint records indicate 1,781 quarter eagles were struck in 1805. Interestingly, the reverse die used in the production of these coins was also employed in the manufacture of 1806 and 1807 quarter eagles and all 1807 dimes. About 100 to 150 examples of the 1805 quarter survive, but not many of them can match the quality of this Uncirculated offering. Flashy yellow-gold surfaces exhibit bold peripheral detail combined with softness over the central devices. Faint diagonal adjustment marks occur on the obverse through the date and across the portrait.

7701	1839-O Classic Head Quarter Eagle -- NGC MS62	\$27,500	Pop 13 with 7 finer at NGC. This vividly toned example is awash in a warm blend of reddish-honey and deep orange-gold. Satiny luster is full and lively, as befits the impressive Mint State grade from NGC. Sharply defined overall, a significant positive in an early date New Orleans Mint coin, this is certainly a premium quality example of a challenging issue. The 1839 O is a numismatically significant issue with tremendous appeal for advanced gold enthusiasts. It is the first New Orleans Mint quarter eagle, the only one of the Classic Head design type, and the only one that displays the O mintmark on the obverse. NGC Price Guide...\$25,000. CDN Retail Price Guide...\$28,800
7910	1884 \$2.5 Liberty Quarter Eagle -- NGC PF66CA	\$29,500	None Finer. Abundant eye appeal are the hallmarks of this piece. Only 73 proof quarter eagles were struck in 1884, automatically making this date an absolute rarity. Only 30-40 pieces are believed known today in all grades, remarkably few of which grade higher than PR64. NGC Price Guide...\$47,500
7931	1905 \$2.5 Liberty -- NGC PF67	\$23,500	Pop 5 Only one finer at NGC. This gorgeous Superb Gem proof has rich golden surfaces with pinpoint design details. The devices on this 1905 are also highly reflective and there is a slight trace of contrast, depending on the angle you view this beauty. A delight to behold. NGC Price Guide...\$35,000.

88052	1888 Three Dollar Gold Piece -- NGC PF65 Cameo	\$31,500	Only 291 struck with 12 numerically finer at NGC. Here is a remarkable Cameo proof specimen with fully brilliant yellow-gold surfaces. The fields are deeply mirrored and admirably display the boldly defined and frosty devices. In 1888 the Philadelphia Mint struck 5,000 business strikes and 291 proofs of the 1888 three dollar gold piece. Of the proofs, it is estimated that only 110 to 130 examples have survived. NGC Price Guide...\$35,500.
PCGS # \$5 Gold Half Eagles		Price	Description
8066	1795 Draped Bust Half Eagle, Small Eagle, BD-3 -- NGC AU58	\$75,000	Inaugural United States Gold Type. The 1795 Draped Bust, Small Eagle five dollar represents the very first issue for the denomination in the history of this country. In fact, this type represents the inaugural production of any United States gold denomination -- 744 half eagles delivered on July 31, 1795. Ultimately, a small number of 8,707 Small Eagle fives of this date were struck, per Mint records. Twelve die pairs have been identified. BD-3 is the most plentiful, constituting an estimated 2,000 to 3,000 coins of the total mintage for the issue. Of those, 175 to 225 examples survive across all grade levels, including five pieces held in the Smithsonian Institution's National Numismatic Collection.
8084	1803/2 Capped Bust Right Half Eagle -- NGC MS63	\$25,000	Only 13 finer among all varieties at NGC. This is the finest known of this variety. Popular Guide Book Overdate, BD-4. This coin is a spectacular Select specimen, with sharply detailed design elements throughout. Some faint planchet adjustment marks are evident in the obverse dentils and a spidery die crack travels through the top of the letters LIBE in LIBERTY. The lustrous orange-gold surfaces and provide outstanding eye appeal. This coin should find a home in a fine collection of early half eagles. NGC Price Guide...\$37,500.
8092	1807 Draped Bust Half Eagle, Large Reverse Stars -- PCGS MS63+	\$29,500	Only 10 finer at PCGS. From the Bass Collection. This lovely premium Choice example will appeal to both advanced early gold specialists and high quality type collectors. Soft satin luster blends with handsome deep orange-apricot color, the appearance attractively original, and uncommonly so for a pre-1834 U.S. Mint gold coin. The strike is remarkably sharp for the type, as well, with both the central and peripheral features well defined. Exceptionally attractive. PCGS Price Guide...\$45,000.
8102	1808 Capped Bust Half Eagle, Wide 5D -- NGC MS64	\$35,000	Pop 7 with one numerically finer among all varieties at NGC. The Wide 5D denomination confirms the BD-4 die pair. No reverse die clashing exists as seen on some later die state BD-4 examples. Lustrous green-gold color gives this Choice Uncirculated BD-4 example great eye appeal. The coin is sharply struck and features unabraded, semireflective fields. Short adjustment marks are seen on portions of the obverse rim, but they do not extend beyond the dentils. The fields and motifs are free of any significant marks. CDN Price Guide...\$48,000. NGC Price Guide...\$42,750.
8110	1811 \$5 Capped Bust Half Eagle, Tall 5 Denomination -- PCGS MS63	\$26,500	Pop 1 with 2 finer of this variety at PCGS. Overall, 175 to 250 know in this variety. This brilliant and lustrous Select Uncirculated example displays a sharp strike on both sides. Attractive green-gold color deepens slightly at the centers and flatters the overall sharp strike. All pre-1834 gold coins are scarce, if not outright rare by definition. PCGS Price Guide...\$30,000.
8145	1825/4/1 \$5 Liberty -- PCGS PR62	POR	Price on request. This piece is extraordinary. The obverse is fully struck with strong cameo contrast. The mirrored fields are greenish-gold, while the lustrous devices are brilliant yellow. The reverse also features a gold strike with brilliant and frosty light yellow-gold surfaces. A trace of orange toning is limited to the E of UNITED. In our opinion, the reverse, if graded separately would qualify at the MS64 or MS65 level. This impressive half eagle is the third finest of three known, meaning it is the "affordable" proof 1825 Over Partial 4 half eagle. This example from the Harry W. Bass, Jr. Collection is a one-sided proof with the obverse showing full proof characteristics, and the reverse showing no proof attributes. While there are those in the numismatic field that suggest one-sided proofs are impossible, this coin and several other early proof half eagles suggest otherwise. There are one-sided proofs of other denominations known as well. The obverse die was highly polished and one side of the planchet was specially prepared to receive the obverse die impression. That combination of procedures is not coincidental. This piece and the other proof 1825/4 half eagles were carefully and specially produced at the Mint.

8459	1882 -CC \$5 Liberty -- PCGS MS61	\$15,500	This is an impressive Mint State example with sharp definition on all design elements. Fresh original and Lustrous gold surfaces. PCGS Price Guide...\$20,000

8376	1890-CC \$5 Liberty -- PCGS MS63	\$7,900	Brilliant and frosty. Sharply struck. Despite a generous mintage (by Carson City standards) of 53,800 pieces, comparatively few Uncirculated examples can be accounted for today. PCGS Price Guide in MS63...\$8,000.
98453	1863 \$5 Liberty Half Eagle -- PCGS PR64 DCAM	\$125,000	Pop 2 with 3 numerically finer at both devices. Mintage 30. Rare Proof Issue. Ex. Louis E. Eliasberg, the only man to ever complete a collection of U.S. federal coinage by date, mintmark, and major variety. This spectacular Choice proof exhibits sharply detailed design elements throughout, and the deeply mirrored fields contrast profoundly with the richly frosted devices to produce a startling gold-on-black Deep Cameo flash when the coin is tilted in the light. The well-preserved lemon-yellow surfaces show a tiny planchet flaw in the field, near Liberty's nose, that serves as a pedigree marker. This coin possesses a remarkable combination of absolute rarity, high technical quality, and outstanding eye appeal. It should find a home in the finest collection or Registry Set.. DID YOU KNOW? A single pair of dies was used to strike the proofs. The reverse die shows die polish in the bottoms of the clear stripes in the shield, making it possible to distinguish between proofs and prooflike business strikes. Experts believe no more than 12 to 14 proofs are extant in all grades. PCGS Price Guide...\$135,000

8515	1909-O \$5 Indian -- NGC MS63	\$105,000	Pop 8 with 9 Finer at NGC. Remarkable absolute and condition rarity. This is an extraordinarily attractive example of this major rarity. The surfaces are original, with each side showing intermixed bright gold and lilac patina. The strike is strong throughout. DID YOU KNOW? The 1909-O half eagle is one of the rarest regular-issue coins from the 20th century. Only 34,200 pieces were issued in this final year of production in the New Orleans Mint. While occasionally available in VF through AU grades, the number of Uncirculated pieces is always in extremely short supply. In fact, the number certified in Mint State can only be compared to the legendary 1929. NGC Price Guide...\$110,000.
8521	1911-D \$5 Indian -- PCGS MS61	\$8,500	Blended honey-gold and soft pinkish-rose patina is seen on both sides of this Mint State half eagle. Frosty surfaces are suitably lustrous for the assigned grade with a bold to sharp strike to most design elements. PCGS Price Guide...\$10,000
8521	1911-D \$5 Indian -- PCGS MS62	\$13,500	Here is an attractive and fresh Mint State example of a key date Indian half eagle issue. Bathed in medium gold patina, both sides are lustrous with bold to sharp striking detail over all design elements. Second only to the 1909-O in terms of rarity and popularity in the Indian half eagle series, the 1911-D has long since gained appreciation as the key issue that it is. While moderately available at the higher circulated preservation levels, in Mint State the issue becomes a remarkable condition rarity, as well. PCGS Price Guide...\$20,000.
8522	1911-S \$5 Indian -- PCGS AU53	\$720	...
8531	1915-S \$5 Indian -- PCGS MS62	\$8,250	Lustrous medium gold surfaces are boldly to sharply defined over the focal features. The S mintmark is fully outlined and readily appreciable. One of the leading condition rarities in the Indian half eagle series of 1908 to 1929, the 1915-S (just 164,000 pieces produced) is scarce to rare in all Mint State grades. PCGS Price Guide...\$12,500.
PCGS # \$10 Gold Eagles		Price	Description
8555	1797 Capped Bust Right Eagle, Small Eagle -- PCGS AU53	\$110,000	Pop 9 with 13 finer at PCGS. 50 to 60 known. This is an overall boldly defined early eagle, the denticulation full around both sides, all devices crisp, and the more protected areas of Liberty's portrait and the eagle retaining razor sharp detail. Both sides are predominantly lustrous with ample mint frost. The appearance is pleasing with a blend of deep gold and rose-orange colors. The 1797 is the scarcest date in the brief Capped Bust Right, Small Eagle ten-dollar gold series of 1795 to 1797. It is believed that only 55 to 65 coins exist, and PCGS CoinFacts takes a similar stance with an estimate of 50 to 60 survivors. PCGS Price Guide...\$185,000.
8565	1803 \$10 Eagle, Small Reverse Stars -- NGC MS62	\$47,500	This piece is especially attractive for the MS62 grade, yielding rich yellow-gold luster and satiny surfaces. Eye appeal is outstanding. Most gold type collections represent the Draped Bust eagle with an 1800 or 1801 specimen. The 1803 date is much scarcer overall.
8589	1843-O \$10 Liberty -- NGC AU50	\$2,900	...
8598	1847-O \$10 Libert -- NGC AU58	\$4,500	A lovely early O-Mint eagle that combines originality and condition rarity. Handsome golden-olive color blankets both sides and mingles with nearly full satin to softly frosted luster. Well struck by the standards of the New Orleans Mint. CDN Retail Price Guide...\$5000.
8615	1854-S \$10 Liberty -- NGC AU53	\$2,750	Nice fresh and original.
8615	1854-S \$10 Liberty -- NGC AU55	\$3,650	Inaugural S-Mint. The San Francisco Mint coined 123,826 ten dollar gold pieces in its first year of operation. Relatively few survive -- perhaps 700 or 800 representatives. This one is well-defined across all elements and has plenty of luster. NGC Price Guide...\$4000
8615	1854-S \$10 Liberty -- NGC AU58	\$6,250	Only 10 Finer. An impressive near-Mint example with overall deep honey-gold color and subtle pale rose tinting. It is sharply defined across all elements. 1854 represents the first year of eagle production at the San Francisco Mint. NGC Price Guide...\$6400. CDN Collectors Price Guide...\$7190.
8625	1858 \$10 Liberty -- NGC AU53	\$12,500	Pop 7 with 9 finer at NGC. The 1858 Liberty eagle boasts a minuscule business strike mintage of just 2,521 pieces. It is estimated that the surviving circulation strike population is 50 to 65 examples in all grades, similar to the famous 1870-CC. Mint State coins are prohibitively rare. This impressive AU53 example displays well-detailed design elements and pleasing orange-gold surfaces. NGC Price Guide...\$16,000. CDN Retail Price Guide...\$15,600. Greysheet...\$13,000.

8669	1874 \$10 Liberty -- PCGS MS62	\$4,400	Pop 8 with only 5 finer. Nice and Original. The surfaces are lustrous with a sharp strike. The 1874 is the first circulation strike eagle since 1861 to have a mintage in excess of 50,000 pieces. The Philadelphia Mint's relatively generous delivery of 53,160 eagles this year was achieved as part of the federal government's attempt to replace worn gold coins in expectation of gold and paper money achieving parity in the market (which did not happen until December 1878). 8881	1920-S \$10 Indian -- NGC MS63	\$160,000	Pop 7 with 8 finer at NGC. The present coin is an attractive Select example, with vivid orange-gold surfaces. This example is well-detailed. The 1920-S Indian ten dollar gold piece claims a nominal mintage of 126,500 pieces, but the issue is much more difficult to locate than that total would suggest. Most of the mintage was stored in banks and Treasury vaults, with just a few examples released into circulation near the time of issue. After the Gold Recall of 1933, virtually all of these coins were turned in and melted, to be stored as gold bars in the Federal Bullion Repository at Fort Knox. Today, the 1920-S is one of the rarest issues of the series in absolute terms, and the rarest in Mint State condition. The last time one of these was traded publicly was nearly a decade ago.

DID YOU KNOW? After striking a record total of 2,976,453 circulation strikes in 1861, the Philadelphia Mint delivered just 92,133 double eagles for commerce in 1862. This marked reduction in output is a result of the suspension of gold specie payments by Northern banks in late 1861 due to the uncertain outcome of the Civil War. Most examples of this issue were used in export trade, and survivors are scarce, representing coins that have been repatriated in recent decades. 9999	1814 Great Britain BHM-844 Silver Indian Peace Medal -- NGC UNC Details	\$13,900	Ex. John J. Ford, Jr. 1814 George III Indian Peace Medal. Silver. First Size. Adams-12.1. 75.5 mm. 1871.1 grains. Lovely medium gray silver with soft blue-green, rose and gold toning on both sides that adds considerably to the visual appeal. Clearly an issued medal, but one that saw very little actual wear. This was the largest of the 1814-dated medals produced for award to Native Americans in the later days of the War of 1812. The British relied heavily upon Native Americans in their war effort. Distribution of medals as markers of allegiance was rampant, so much so (as related by Adams), a Captain Bulger, Commander at Green Bay, wrote in 1815 that ", formerly a chief would have parted with his life rather than his medal. Missing the original suspension hanger, leaving behind the piercing at 12 o'clock that is on all issued medals, so the "holed" designation from NGC really does not make sense as a grading qualifier on this, or any medal like it. This is exactly how they were issued (with a hanger), and this is a particularly attractive example.
